U. S. MAY INTERVENE IN NICARAGUAN REVOLT

TO PREVENT MEXICAN AID TO LIBERALS

ALSO TO CRUSH COMMUNIST PLOTS COMING TO A HEAD

SECRETARY OF STATE KELLOGG RECOGNIZES CONSERVATIVE PRESIDENT DIAZ

Washington, Nov. 18.—(UP)—The United States may be led to intervene in the Nicaraguan revolution at the request of the new conservative government to prevent alleged Mexican aid to the liberal rebels and to crush communist plots.

Secretary of State Kellogg's statement recognizing Adolfo Diaz, conservative, and showing alarm over "outside interference" was followed by Nicaraguan press reports that Diaz is requesting United States assistance to prevent alleged Mexican gun smuggling for the revolutionists.

In a veiled reference to Mexico, Kellogg said the Nicaraguan revolt had "invited interference from outside sources, a state of affairs which must cause concern to every stability in Central America."

United States marines are now occupying Bluefields, Nicaragua, and American battleships are on guard on both coasts of that country.

DIAZ IN APPEAL TO UNITED STATES

Washington, Nov. 18.—Government information purporting to show Mexico aiding Nicaraguan revolutionists by arms running was augmented today by receipt of an appeal from Nicaraguan President Diaz for state department aid "with a view to reaching a solution of the present crisis and avoiding further hostilities and invasions on the part of the government of Mexico."

Diaz's appeal, made through American Charge Dennis under date of November 13, stated Diaz realized the United States government had always manifested an intention "for protection of the sovereignty and independence of all the countries of America by morally supporting legitimate governments to enable them to afford a tranquil field for foreign capital needed for the prosperity of these countries."

MILITARY MOVEMENT AGAINST BRAZIL

Buenos Aires, Nov. 18.—The Prensa correspondent at Montevideo, Uruguay, today reported a military movement against the Brazilian government in the province of Rio Grande Do Sul.

No confirmation of the report has been received.

Rio Grande Do Sul is the southernmost part of Brazil and is the northern boundary of Uruguay. Military rebellion frequently has occurred there.

CHARGES ADULTERY AND NON-SUPPORT

Chicago, Nov. 18.—(UP)—Charging adultery and non-support Jessie Dahl filed suit today in circuit court for divorce from her husband, Freddie Dahl. They were married at Granite Falls, Minn., in 1919, following a short courtship after they had met at a dance. They came to Chicago in 1925. Mrs. Dahl left for a visit to her parents at Granite Falls, and while there received a letter from her husband telling her not to return. Upon her arrival here she found her husband living with another woman, she charges. Mrs. Dahl asks custody of their three year old daughter and \$150 a month alimony.

JURY SELECTED TO TRY BANKER

Benson, Minn., Nov. 18.—(UP)—Selection of a jury to try F. C. Thornton, president of the closed Swift State bank of Swift Falls and the First National bank of Benson, was started here today after a defense motion for a change of venue was denied by Judge G. E. Kvale.

Thornton is being tried under an indictment charging him with grand larceny of \$6,000 left by Paul Vetter with the Benson bank for payment of a mortgage. He faces five other indictments.

Hog Cholera Breaks Out On Farm Near Pillager

PROPERTY RIGHTS TO THE AIR ARE UPHELD

Chicago, Nov. 18.—(UP)—Property rights to the air were upheld here in a decision handed down by Judge Francis S. Wilson in a suit brought by WGN and WLIR, local radio stations, against the Oak Leaves station.

The decision of Judge Wilson enjoins the Oak Leaves station from broadcasting over a wavelength sufficiently near that of the other two stations to interfere with programs.

The new principle set up by the decision is that priority of time in the use of wave lengths, the building of property on this basis and the education of the receiving public to a certain wave length create a superiority right in that particular part of the ether.

RUSH WORK TO UNWATER FLOODED MINE

SIX MEN ENTOMBED 40 HOURS NEAR HAZELTON, PA.

AT TOM HICKEN MINE OF THE LEHIGH VALLEY COAL COMPANY

Hazleton, Pa., Nov. 18.—(UP)—The work of pumping the water from the Tom Hicken mine of the Lehigh Valley Coal Company where six men have been entombed for 40 hours was being rushed today.

A large crew of rescue workers is laboring tirelessly in an effort to free their comrades who were caught when the mine was flooded by an overflow from a small creek Tuesday afternoon.

Mine officials estimated that it would require at least two and possibly three days to lower the water to a level from which it would be possible for the rescue workers to reach the imprisoned men.

Whether the entombed men survived the onrush of the water and succeeded in taking refuge on a higher slope of the mine is a matter of conjecture.

SHAW TO SELL SCREEN RIGHTS TO BOXING NOVEL

London, Nov. 18.—(UP)—George Bernard Shaw thinks the screen rights to his early boxing novel, "Cashel Byron's Profession," are worth \$250,000, but he would sell them to Jesse Lasky, who would star Gene Tunney, for \$100,000. Lasky has offered \$75,000. Shaw suggested in a cable to his American agent that Jack Dempsey play the villain of the story.

LAUNCHES SEARCH FOR LOST TUG

Neenah, Wis., Nov. 18.—(UP)—Launches from Neenah, Menasha and Oshkosh were today searching for the tug Marston of Oshkosh, which is believed to have been blown ashore or upon a reef in Lake Winnebago during last night's storm. The tug, with 10 men aboard, was towing an empty barge bound for Green Bay and its failure to pass through the locks here resulted in the search.

SESQUI HAS HUGE DEFICIT OF 5 MILLION

Philadelphia, Nov. 18.—(UP)—The deficit of the Sesqui-centennial exposition when it closes December 1 will be about \$5,250,000. This includes construction items of approximately \$4,900,000, according to reports and unpaid maintenance, operating and equipment bills that will reach \$350,000. The deficit will be partly financed through diversion of city funds to settlement of the Sesqui bills. The transfer of the money was authorized at the polls.

A meeting of the directors is to be held tomorrow at which the question of opening the exposition next year will be taken up.

Mrs. Jane Gibson Says She Rode Her Mule Right Into the Heart of Murder Mystery

"KING BEN" PURNELL NOW AWAITS TRIAL

KNOWN TO HIS FOLLOWERS AS "7TH ANGEL OF THE ISRAELITES"

CHARGED WITH BIGAMY AND CRIMINAL ASSAULT UPON 2 GIRLS

Benton Harbor, Mich., Nov. 18.—(UP)—"King Ben" Purnell, known to his bearded followers as "the Seventh Angel of the Israelites" and to the state of Michigan as a "pious fraud," awaits arraignment December 22 on charges of bigamy and criminal assault upon two girls.

Under bond of \$120,000 by eight Benton Harbor business men, "King Ben" had been allowed to return to the seclusion of his strange cottage on the outskirts of Benton Harbor, there to await his formal arraignment and the trial which is considered certain to follow.

His followers including men and women from all corners of the world have rallied to his defense and claim they will prove him innocent of any wrong doing. They have shielded him from arrest for four years, not because they feared his conviction but because they believed he would be given unfair treatment, several members of the cult said.

Since the first "exposure" four years ago of the religious colony known as "The House of David," warrants have been out for the arrest of "King Ben" in virtually every state. Even across the borders of Canada and Mexico search has been made. During the last year, however, it was common gossip about Benton Harbor and St. Joseph that the cult leader never had left his colony but was secreted in Shiloh, palatial residence shared by "King Ben" and "Queen Marie."

Early yesterday on the suggestion of Mrs. Bessie Woodworth, a former member of the cult, authorities surrounded Shiloh, broke into the long, winding halls of the palace and there they found "King Ben" as Mrs. Woodworth had predicted.

But the arrest was not without a surprise, from the tales that had been told of "King Ben" they had expected to find a physical giant, a man of great strength and vigor, who ruled his colony with the authority of strength, a man whose strong body and comely countenance had bended young girls to his whim and fancy. Instead they found a withered, tottering man, pale and almost haggard from long confinement within Shiloh, a man whose very physique seemed to belie the tales that had been whispered about the town. He is 65.

In addition to the criminal charges which Purnell faces, the colony faces damage suits on the charges of deserting members that their property was seized when they joined the cult and never returned to them.

Attorneys engaged by the colony told the United Press today they are confident "King Ben" would be cleared, that they would prove him physically incapable of the immoralities of which he is accused, and that the colony has been conducted in "decency and order."

But the state of Michigan charges Purnell as a "religious imposter and a pious fraud."

PANAMA FLIGHT POSTPONED BECAUSE OF BAD WEATHER

Philadelphia, Nov. 18.—(UP)—Due to reports of unfavorable weather over Chesapeake Bay, the two giant PN-10 navy seaplanes, due to leave here today on the first leg of their flight to Panama, postponed their departure for Hampton Roads until tomorrow.

Educational
"It is a fact," says Paw Hoptoad, "that I am having my daughter instructed in many old-fashioned things. For instance, the art of conversation—over the telephone."—Louisville Courier-Journal.

LYNCH RULE IN GEORGIA GETS SETBACK

Douglas, Ga., Nov. 18.—(UP)—Lynch rule in Georgia has received one of the most severe setbacks ever given through the action of Superior Court Judge Harry Reed in sentencing nine members of a lynching mob to jail, one for a life term, just 90 days after the lynching act.

The mob last August dragged Dave Wright, a white man, from jail and killed him.

Brought before Judge Reed late yesterday the leader of the group, Major Brown, withdrew his not guilty plea before the jury was completed. The eight others followed suit.

Brown was sentenced to serve a life term, the eight others received prison terms of from 4 to 20 years each.

MIDWINTER BLIZZARDS IN THE MIDWEST

CRIPPLE WIRE COMMUNICATION AND DELAY RAIL SCHEDULES

SNOW FALLS OVER WIDE AREA IN HALF A DOZEN STATES

Chicago, Nov. 18.—(UP)—Mid-winter blizzards swept virtually the entire middle west today, crippling wire communication and delaying railroad schedules.

Snow fell over a wide area in a half dozen states and in some places reached a depth of four inches. At Peoria, Ill., it was seven inches.

Temperatures fell during the night and were still on the downward trend today. Winds of extreme velocity whipped the snow in huge banks at many points.

St. Paul, Nov. 18.—Intermittent snowfall for the last four days has laid a blanket of white across the northwest. Drifts as much as six feet deep were reported today.

Highways in northern Minnesota are blocked and impassable and in central Minnesota conditions are almost as acute. Reports of disrupted bus line schedules were common and passengers were forced to wait some times for hours for roads ahead to be cleared.

Anticipating additional snow forecast for today, the state highway department ordered out scores of plows to keep principal roads passable.

Milwaukee, Wis., Nov. 18.—Snow, sleet and rain, driven before a strong wind swept over the state during the night and indications were that more snow would fall.

Snow started falling late in the afternoon and was blown before a wind of near gale proportions. Within a few hours practically the entire state was blanketed.

About 9 P. M. yesterday the mercury took a slight jump upward and the snow turned to sleet and then to rain. Rain fell until midnight when the skies cleared.

The wind, however, continued all through the night and today there was little evidence of snow or rain-fall.

NATIVE REVOLT AGAINST DUTCH FLARES ANEW

Samarang, Java, Nov. 18.—(UP)—The native revolt against the Dutch East India government broke out afresh last night but was quickly suppressed. One hundred communists were arrested. Police and military forces have joined in an offensive in western Java with the object of destroying the headquarters of the rebellion.

BRITISH MINERS REJECT OFFERS OF GOVERNMENT

London, Nov. 18.—(UP)—British miners, most of them idle and many of them in want, have rejected the government proposals for ending the coal stoppage which began May 1. A. J. Cook, secretary of the British Miners' federation, told the United Press today.

He said the rejection had been by a large majority and that North Wales was the only district not yet reported.

OFFICIAL STATEMENT ACCEPTING OFFER

London, Nov. 18.—(UP)—Coal miners of Nottinghamshire have accepted the government's proposals to end the coal stoppage, it was officially announced today.

PERMISSION TO LEAVE MINNESOTA GRANTED WRIGHT

St. Paul, Nov. 18.—(UP)—Permission to leave Minnesota was granted today to Frank Lloyd Wright and Mrs. Olga Milonoff, principals in Wright's love tangle.

The noted architect and his former housekeeper are under bond awaiting federal grand jury action on charges of conspiracy to violate the Mann act growing out of their trip together from Wisconsin to Minnesota.

Their petition for permission to leave the state was approved by Federal Judge John B. Sanborn here, but no explanation of the reason was made.

her mule. In her haste she lost a moccasin. Three more shots, "bang, bang, bang," sped her on her way. Mrs. Gibson said she had gone home and then had decided to return to the Phillips farm.

She heard a sound like a screech owl and tied her mule once more. She came forward and saw the woman identified as Mrs. Hall kneeling.

"The woman was crying and crying and crying," said Mrs. Gibson. After Mrs. Jane Gibson then told of her going on home, Senator Simpson then asked her whether she knew Felix Dimartini, a defense detective.

Mrs. Gibson identified a picture of the detective.

Shortly after she had made her statement public, Mrs. Gibson said, Dimartini came to her place and poked his finger in her face, saying: "You'd better keep out of this and keep your mouth shut. It will pay you better."

The witness said she told him to get out.

Then the doctor and nurses raised the head of the bed in order that Mrs. Gibson might identify the defendants.

Mrs. Gibson pointed at Mrs. Hall and asked her to take off her hat.

"That's her," said the witness, raising her voice.

"Do you see Willie Stevens in the court room?" asked Simpson.

"Yes, right over there, right over there, looking at me."

There was some confusion as to which of the Stevens brothers she was looking at.

Simpson asked an attorney next to Willie Stevens to move aside.

Counsel for the defense objected to this maneuver, but from that point on Mrs. Gibson was certain in her identification of Mrs. Hall's errand brother.

She then pointed out Henry Stevens and the identification of the defendants was complete.

Mrs. Hall and her brothers retained their poise as Mrs. Gibson nodded to them.

On cross examination Mrs. Gibson's testimony seemed to become confused at times.

Although she had first identified Henry De La Bruyere Carpenter as having been present the night of the murder, when questioned again as to his presence, she said she could not remember.

Then she became uncertain as to how many persons she saw and said it was "three or four."

Although she had identified a maximum of four persons as present at the scene, she talked of a "colored man" for a second time during her testimony. She said she did not go to give help when she heard a woman scream because she thought "she had been out with a colored man and it served her right."

32 HOGS AFFECTED ON ONE FARM, FOUR ESCAPE DISEASE

WAS FIRST DISCOVERED BY C. A. NELSON, VETERINARIAN, BRAINERD

PROPER QUARANTINE REGULATIONS TO BE ESTABLISHED TO CHECK SPREAD

Hog cholera has broken out on a farm near Pillager in Morrison county and an early warning is being given the farmers of Morrison, Cass and Crow Wing counties of the outbreak of the disease among hogs to prevent a general outbreak in these sections.

The disease was first discovered by Dr. C. A. Nelson, veterinarian, of Brainerd, who called in Dr. C. P. Fitch of the University Farm, chief of the Veterinary Department, the latter substantiating the diagnosis.

The farm, said Dr. Nelson, has 36 pigs, of which all but four are affected. These four are to be vaccinated as well as hogs on neighboring farms. Proper quarantine regulations were immediately established to check further spread.

Virus of hog cholera can be carried by humans and consequently none is allowed near the afflicted hogs. Pens and grounds are being disinfected. The virus has been known to travel on shoes and rubbers of careless people and accordingly all footwear is being given a bath in antiseptic solutions.

HEATED DENIAL OVER TICKET MANIPULATION

DENY TICKET SCALPERS HOLD BLOCKS OF TICKETS FOR ARMY-NAVY GAME

ALL THE HULLABALOO SEEMS TO GATHER ABOUT CONGRES- SIONAL ALLOTMENT

By CLARK W. KELSEY

(United Press Staff Correspondent)
Chicago, Nov. 18.—Charges of wholesale manipulation of Army-Navy football game tickets by scalpers made in the east, principally in Washington, today brought a heated denial from officials in charge of arrangements for the game here that any substantial blocks of tickets are held by scalpers.

The denial followed receipt of word from Washington, New York and other eastern cities that ticket agencies in those cities are offering for sale large blocks of the tickets.

"That would be an impossibility," President Edward Kelly of the South Park Board, in charge of the tickets, said. "We set aside a few less than 12,000 tickets for members of congress. All the hullabaloo seems to center around the congressional allotment. Then we gave each school 40,000 tickets and bought back 10,000 from each school. That gave us 28,000 tickets to sell at the auction. The prices these tickets brought when auctioned certainly forbids any scalping."

Regarding the eastern charges that whole blocks of tickets allotted to congressmen are now held by scalpers, Kelly is of the opinion that they are untrue.

"I have heard," he said, "that some secretaries for congressmen have obtained tickets in their employers' names and turned them over to scalpers. I doubt these stories but even if they are true, there certainly could have been no 'whole blocks' placed in the hands of scalpers. For the tickets were not allotted that way."

Meantime football fans today were offering from \$25 to \$100 for seats during the game, with few getting them.

African Locusts Large

In certain parts of Africa the locusts are said by explorers to grow to an extraordinary size. In some places, it is reported, they attain the length of four inches, and eat mice as their ordinary food.

LEAVES SICK BED TO TESTIFY IN HALL-MILLS CASE

GIVES TESTIMONY AGAINST WOMAN OF WEALTH, POSITION, REFINEMENT

STATE'S STAR WITNESS AGAINST
MRS. HALL AND STEVENS
BROTHERS

By PAUL W. WHITE
(United Press Staff Correspondent)

Somerville, N. J., Nov. 18.—Mrs. Jane Gibson today identified Mrs. Frances Stevens Hall and her brothers, Willie and Henry Stevens, as persons who were present in DeRusse's Lane the night that the Rev. Edward W. Hall and Mrs. Eleanor R. Mills were killed.

Mrs. Gibson was carried into the court on a stretcher and her testimony was taken as she reclined beside the witness box.

She was brought to the court room in an ambulance from Jersey City where she has been for the past fortnight.

She was regarded as the star witness for the state in its case against Mrs. Hall and the Stevens brothers. "The state produces a witness," Jane Easton (also known as Gibson) and asks to have her sworn," announced Simpson calmly.

"What was your occupation on the night of September 14, 1922?" asked Simpson as his first question. "A farmer," answered the witness in such a low tone that it was hardly audible.

Mrs. Gibson said her corn field had been robbed the Sunday night before the murder.

She heard an "old, rickety wagon in the field on the next Thursday night," she said.

Her dogs barked and she went out to investigate.

Then, said the witness, she saddled her mule and started up DeRusse's Lane and after the wagon.

"What did you see later?" asked Simpson.

"I saw an automobile and two people," mumbled the witness.

"Who were they?"

"A white woman, without a hat and a 'colored' man."

"Do you know who they were?"

"I know now. They were Mrs. Hall and Stevens."

"What Stevens?"

"Willie Stevens."

Mrs. Gibson then said she went up the lane, lost track of the wagon and came back, tying her mule to some cedar trees.

She left the mule, she said, because she thought Jenny's bray would give her away in case the wagon driver came back.

As she left the cedar tree she heard voices, she said, "men's voices and women's voices."

"The sounds were as of a quartet. She heard someone say, 'Explain those letters.'"

Men swore, she said.

One of them cried: "God damn it, let go!"

She saw two faces. One of them she said was Henry Stevens.

It was a far cry from an actual sick room but the paraphernalia was there. A hot water bag was placed at the farm woman's feet. Thermos and medical bottles were placed at the bedside. Mrs. Gibson was pale and much thinner than when she was taken to a hospital ten days ago. At one time she rocked her head violently from side to side.

Special Prosecutor Simpson hustled about as though he were a stage manager arranging a production. Senator Case of defense counsel, who sat at the other side of the bed did not even glance at her.

Mrs. Gibson said she had identified the other man, but Senator Simpson told her not to mention him. She did not then see Willie Stevens.

Mrs. Gibson then heard a shot, she said.

"A woman screamed 'Oh Henry,' very easy," went on Mrs. Gibson.

"Another woman screamed: 'Oh my, oh my, oh my!'" How she screamed."

At this point she said she ran for

BRITISH MINERS REJECT OFFERS OF GOVERNMENT

London, Nov. 18.—(UP)—British miners, most of them idle and many of them in want, have rejected the government proposals for ending the coal stoppage which began May 1. A. J. Cook, secretary of the British Miners' federation, told the United Press today.

He said the rejection had been by a large majority and that North Wales was the only district not yet reported.

OFFICIAL STATEMENT ACCEPTING OFFER

London, Nov. 18.—(UP)—Coal miners of Nottinghamshire have accepted the government's proposals to end the coal stoppage. It was officially announced today.

PERMISSION TO LEAVE MINNESOTA GRANTED WRIGHT

St. Paul, Nov. 18.—(UP)—Permission to leave Minnesota was granted today to Frank Lloyd Wright and Mme. Olga Milanoff, principals in Wright's love tangle.

The noted architect and his former housekeeper are under bond awaiting federal grand jury action on charges of conspiracy to violate the Mann act growing out of their trip together from Wisconsin to Minnesota.

Their petition for permission to leave the state was approved by Federal Judge John B. Sanborn here, but no explanation of the reason was made.

her mule. In her haste she lost a moccasin. Three more shots, "bang, bang, bang," sped her on her way. Mrs. Gibson said she had gone home and then had decided to return to the Phillips farm.

She heard a sound like a screech owl and tied her mule once more.

She came forward and saw the woman identified as Mrs. Hall kneeling.

"The woman was crying and crying and crying," said Mrs. Gibson.

After Mrs. Jane Gibson then told of her going on home, Senator Simpson then asked her whether she knew Felix Dimartini, a defense detective.

Mrs. Gibson identified a picture of the detective.

Shortly after she had made her statement public, Mrs. Gibson said, Dimartini came to her place and poked his finger in her face, saying:

"You'd better keep out of this and keep your mouth shut. It will pay you better."

The witness said she told him to get out.

Then the doctor and nurses raised the head of the bed in order that Mrs. Gibson might identify the defendants.

Mrs. Gibson pointed at Mrs. Hall and asked her to take off her hat.

"That's her," said the witness, raising her voice.

"Do you see Willie Stevens in the court room?" asked Simpson.

"Yes, right over there, right over there, looking at me."

There was some confusion as to which of the Stevens brothers she was looking at.

Simpson asked an attorney next to Willie Stevens to move aside.

Counsel for the defense objected to this maneuver, but from that point on Mrs. Gibson was certain in her identification of Mrs. Hall's errand brother.

She then pointed out Henry Stevens and the identification of the defendants was complete.

Mrs. Hall and her brothers retained their poise as Mrs. Gibson nodded to them.

On cross examination Mrs. Gibson's testimony seemed to become confused at times.

Although she had first identified Henry De La Bruyere Carpenter as having been present the night of the murder, when questioned again as to his presence, she said she could not remember.

Then she became uncertain as to how many persons she saw and said it was "three or four."

Although she had identified a maximum of four persons as present at the scene, she talked of a "colored man" for a second time during her testimony. She said she did not go to give help when she heard a woman scream because she thought "she had been out with a colored man and it served her right."

32 HOGS AFFECTED ON ONE FARM, FOUR ESCAPE DISEASE

WAS FIRST DISCOVERED BY C. A. NELSON, VETERINARIAN, BRAINERD

PROPER QUARANTINE REGULATIONS TO BE ESTABLISHED TO CHECK SPREAD

Hog cholera has broken out on a farm near Pillager in Morrison county and an early warning is being given the farmers of Morrison, Cass and Crow Wing counties of the outbreak of the disease among hogs to prevent a general outbreak in these sections.

The disease was first discovered by Dr. C. A. Nelson, veterinarian, of Brainerd, who called in Dr. C. P. Fitch of the University Farm, chief of the Veterinary Department, the latter substantiating the diagnosis.

The farm, said Dr. Nelson, has 36 pigs, of which all but four are affected. These four are to be vaccinated as well as hogs on neighboring farms. Proper quarantine regulations were immediately established to check further spread.

Virus of hog cholera can be carried by humans and consequently none is allowed near the afflicted hogs. Pens and grounds are being disinfected. The virus has been known to travel on shoes and rubbers of careless people and accordingly all footwear is being given a bath in antiseptic solutions.

HEATED DENIAL OVER TICKET MANIPULATION

DENY TICKET SCALPERS HOLD
BLOCKS OF TICKETS FOR
ARMY-NAVY GAME

ALL THE HULLABALOO SEEMS
TO GATHER ABOUT CONGRESSIONAL ALLOTMENT

By CLARK W. KELSEY
(United Press Staff Correspondent)

Chicago, Nov. 18.—Charges of wholesale manipulation of Army-Navy football game tickets by scalpers made in the east, principally in Washington, today brought a heated denial from officials in charge of arrangements for the game here that any substantial blocks of tickets are held by scalpers.

The denial followed receipt of word from Washington, New York and other eastern cities that ticket agencies in those cities are offering for sale large blocks of the tickets.

"That would be an impossibility," President Edward Kelly of the South Park Board, in charge of the tickets, said. "We set aside a few less than 12,000 tickets for members of congress. All the hullabaloo seems to center around the congressional allotment. Then we gave each school 40,000 tickets and bought back 10,000 from each school. That gave us 28,000 tickets to sell at the auction. The prices these tickets brought when auctioned certainly forbids any scalping."

Regarding the eastern charges that whole blocks of tickets allotted to congressmen are now held by scalpers, Kelly is of the opinion that they are untrue.

"I have heard," he said, "that some secretaries for congressmen have obtained tickets in their employers' names and turned them over to scalpers. I doubt these stories but even if they are true, there certainly could have been no 'whole blocks' placed in the hands of scalpers. For the tickets were not allotted that way."

Meantime football fans today were offering from \$25 to \$100 for seats during the game, with few getting them.

African Locusts Large

In certain parts of Africa the locusts are said by explorers to grow to an extraordinary size. In some places, it is reported, they attain the length of four inches, and eat mice as their ordinary food.

She was born in Sweden in 1829, came to America 25 years ago and has lived in Brainerd ever since. Mrs. Hillman is the mother of six children, five of whom reside in Brainerd, and has 14 grand children and 11 great grand children. She perhaps has the distinction of being the oldest living lady in Brainerd today.

DIVINE HEALING SERVICE

Tonight at Full Gospel Assembly With Evangelist Roy K. Reed, as the Speaker

Another Divine healing service will be held tonight at the Full Gospel Assembly (near the fill), where revival services have been in progress, with Evangelist Roy K. Reed, of Verona, N. D., as the speaker. The services continue every evening at 7:30, and all are urged to attend.

The subject for the message tonight will be "Healing for the Soul, Mind and Body." Prayer will be made for the sick and afflicted.

"Many do not understand at all this great truth, that it is the privilege of the Christian to go to God in cases of sickness or affliction of any kind, and be healed. Jesus Christ is the same today as He was when He walked this earth and healed the sick of every kind, and He is just as able to heal the sick today as then," Rev. Johnson, pastor of the Assembly said today. "All those in need of help are especially asked to come tonight, and get acquainted with God's plans and conditions for receiving help."

Service will begin promptly at 7:30. Good music and singing. Do not fail to come.

SCANDIA ART

BELL RINGERS

Will Appear at Bethlehem Lutheran Church, Tuesday, November 23

AUSPICES OF MEN'S CLUB

Critics Praise Programs of Soft and Clear Tones of Bellringers

Of Agre's Scandia Art Bellringers which will appear at the Bethlehem

Lutheran church on South Seventh street Tuesday, November 23, under the auspices of the Men's club, the Daily News, Newport, R. I., wrote in part:

"No discount was asked because the program was played through such a difficult medium as handbells. A moment's experimenting convinced anybody used to the even touch of the piano, what a tremendous technique was necessary to produce such delicate shading on bells requiring such different degrees of muscular action. A bellringers' program carrying such composers as Ole Bull, Beethoven, Grieg and Dvorak, is in itself notable. And how these bells reproduced these composers! Every tone was refined, every chord was true to the original composition. The tempo was right, and it was always a changeable, graceful, tuneful sort of music. It has seldom been so beautifully played here, and so

true to the composer's score and thought. These men have a right to call themselves art players. Old time bellringers rendered a different and far less difficult type of music."

The North Star, New York City, sums it up as follows: "Foregoing rumors had it that these bellringers could produce soft and clear tones and this proved to be really true."

"A surprisingly wide variety of tonal effects was achieved in the bellringers," writes the Evening Times, Warren, Pa. "One would have expected resonant effects ranging from the hushed to the brilliant full-voiced chiming. But that bells could be so rung as to produce both staccato and legato effects was un-

expected. At times a passage was played in the purling tone that is scarcely ever heard except on the piano."

Big Moment in Film in Last Fifty Feet

In a film replete with big moments, the biggest moment of "Stella Dallas" is in its last fifty feet of film.

Henry King, director of the film version of Olive Higgins Prouty's celebrated novel, has adroitly built a powerful emotional suspense, which he unleashes in a smashing climax.

In developing the finish of the picture, King used all the screen art and technique at his command to give to this peak of feeling, all the quality of pathos and happiness so strongly conveyed in the novel.

"Stella Dallas" is at the Lyceum theatre tonight.

LUTEFISK SUPPER

Annual Supper to be Served at the Norwegian-Danish Lutheran Church

The annual lutefisk supper will be served in the basement of the Norwegian-Danish Lutheran church Friday evening, November 19th, commencing at 5 o'clock.

The committee on general arrangements, of which C. J. Walstad is chairman, held a genuine pep meeting Monday evening and decided that no effort be spared in making this supper bigger and better than ever.

The menu consists of lutefisk, potatoes, lefse, flatbread, melted butter, cream gravy, beef loaf, bread, cake and coffee.

This is the ninth annual lutefisk supper served by the Men's club of the church. It has become an event looked forward to by many people in Brainerd and vicinity as well as many on the range.

"Lutefisk" belongs to the foreign elements that have contributed to enrich American culture. To quote the governor of Minnesota in his welcome speech to the Swedish crown prince: "Even that part of our cultural life which is represented by the menu has been enriched by adding sauerkraut, spaghetti and lutefisk." And this statement as to the cultural value of lutefisk has been heartily endorsed both by Louis Hostager and Dr. A. K. Cohen.

A. G. Trommald in his usual manner has made a liberal donation of butter and everyone who attends

Plaster of Paris

Plaster of Paris is derived from a mineral called gypsum. Burned first to dry off the superfluous water, this gypsum yields a fine chalky powder which, when moistened again into a paste, and pressed into a mold, hardens into a perfect replica of its model, so making an ideal material for cheap statues and the like.

Gypsum is found in many parts of the world, but as a large part of Paris happens to be built over whole beds of it, that city was the first to discover this particular way of using it. Hence models and statuettes so fashioned were spoken of as being made of plaster of Paris.

Nobody Has a Cinch

The notion of the rich that the poor are happy is scarcely less foolish than the notion of the poor that the rich are—Lebanon Reporter.

Too Much Haste

Spiritually, no less than physically, we tend to be in too great a hurry, and are too fond of smooth, comfortable "runs." We are impatient of "inconvenience and delay" in reaching the goal of our material ambitions—yes, and too often also in the attainment.—Exchange.

Pernicious Insect Pest

The Argentine ant, which takes its name from the country where it was first discovered, has a fondness for flesh and is said to have been known to attack babies in their cradles. In some instances the wounds proved fatal. This ant is one of the worst known insect pests, and when they once invade a locality it is almost impossible to get rid of them.

Snakes Eaten as Food

Snakes, considered by some peoples as food delicacies, are a specialty in the new Kimura restaurant in Tokyo, Japan. The proprietor is a well-known Japanese chef and his juicy fried snakes already have a great and wide vogue. It is said.

Vol. 1 THURSDAY, NOV. 18, 1926 No. 49

The majority rules — when in accord with the boss.

Did you ever see a free show that didn't have some kind of collection attached to it?

A man would doubtless be as irritable as a setting hen were he placed in a similar position.

The things that come to those who wait are seldom what they started in to wait for. Count that day lost. Whose low descending sun sees collection shot to — And business done for fun.

"I like Standard Coal," says one customer, "because it holds the heat so well. I have the finest bed of nice red hot coals in the morning you ever saw." Another car load just arrived.

We can understand how they find new planets but we can't understand how they get to know their names.

If there's nothing in a name it's queer what becomes of the things a man sometimes puts in his wife's name.

You don't buy coal, you buy heat. That's why

STANDARD coal is so popular — it's full of heat units.

1886-1926

The old fashioned girl who was horrified if her petticoat showed must now make way for her granddaughter who believes in general advertising.

"I've just been reading some statistics here — every time I breathe a man dies." "Gosh, man! Why don't you use Listerine."

There seems to be an awfully chilly draft coming around our corner. Dye notice it, or have you changed to the long kind.

OTTO BREMER VISITS BRAINERD

Influential Banker and Capitalist is
Vice President of Citizens
State Bank

PLEASED WITH STATEMENT

Explains Why He Has Invested in a
Large Number of Carefully
Selected Banks

Otto Bremer, of St. Paul, one of the most influential bankers and capitalists of the Northwest, was in the city today and was quite pleased with the statement of the Citizens State bank of Brainerd, in which bank he is a vice president and director.

The local bank statement, as published in the Brainerd Dispatch last evening showed total assets of \$991,655.91. The amount of cash reserve carried is three times that required by law, the exact figures being amount of reserve on hand \$214,428.76 and amount of reserve required by law, \$71,690.03, while the total liquid reserve is \$650,160.41.

"I was at Detroit Lakes, Minn., recently," said Mr. Bremer, "for the purpose of offering my personal services and financial aid that is needed to help the situation for county, school board and city, and the farmers and business men generally."

"I am of course very much gratified at the confidence shown the Detroit State bank, with which I became connected about the beginning of the year. It was only after a thorough house cleaning at the time that I would allow my name to be connected with the Detroit State bank. By taking out all real estate and slow paper the desired result was secured and the bank is now in such an exceedingly liquid condition, that we can and will pay any depositor whether his obligation is due or not," concluded Mr. Bremer.

Sometime ago in answer to an inquiry of the late John H. Rich, Chairman and Federal Reserve Agent of the Federal Reserve Bank of Minneapolis, Mr. Bremer explained why he invested in the stock of a large number of banks that are carefully selected, taking into account the local conditions, proper associates and management.

"My liking for the business," said Mr. Bremer.

"The security of such investments over a period of years, lessening the risks involved, scattering them over a territory comprising Western Wisconsin, Minnesota and North Dakota in comparatively small amounts.

"The desire for a gradual but slow increase of my invested capital, instead of higher temporary returns in dividends or interest, by carrying out my dividend policy which is a conservative one, limiting same to six per cent on the capital employed, the balance of the profit being left in surplus and undivided profits, thereby safeguarding the institution against unforeseen depressions.

"As the success of my investments is based on the continued success and growth of these institutions, all profits of every nature, whether arising from my personal efforts, credit or banking experience or not, are for their sole benefit without any other compensation therefor except to the local management.

"From the foregoing you will see that I am primarily interested in the welfare of the banks, giving their managements the benefit of my long experience in this line of endeavor which is at all times at their disposal, either in the making of loans or in giving advice in the event of investing surplus funds for long or short periods.

"My interest in any bank is, I believe, a beneficial one to the bank but, whether it be large or small, each bank must stand on its own footing, employing its own resources, but at times of need and in order to get desirable business, supplemented by my own capital. If any of the banks must borrow money they apply directly to me and to their city correspondent banks only; they do not borrow money among themselves.

"No compensation of any kind is either charged or received by me for any service rendered to any of the banks in which I am interested. I receive no salary nor do I receive any sum, in excess of current rates,

for moneys loaned by me to the banks.

"From the foregoing you will see that I am diametrically opposed to the so-called 'Chain Bank System,' and I welcome the opportunity of expressing my opinion in regard to the same.

"My long experience with country and city banks has given me an insight into the workings of this unhealthy system, fostered by so-called Holding Companies that can only prosper by milking the banking institutions which were so unfortunate as to come under the control of such companies that have the appearance of a security, banking and brokerage concern with fine quarters at high rents, and many officials with high salaries for the evident purpose of facilitating the procuring and loaning of funds for the smaller country banks.

"In order to make the parent concern prosperous the mortgages, securities, etc., are switched from a district of high money with small home deposits to banks in more flourishing districts where cheaper rates prevail. This, in itself, could give no cause for complaint, if the banks at either end would be dealt with fairly, but the parent or holding company must, of necessity, charge undue commissions to both banks to insure enough profits to pay for its high overhead and dividends to its stockholders. A holding company operating a chain of banks can be prosperous to itself only in the same ratio that it is detrimental to its controlled institutions, because, on account of the nature of its business, it must rely on commissions and charges that the smaller banks can ill afford to pay and should not be subjected to; at least not from a moral standpoint, even if permissible from a legal one, most assuredly not from a banking standpoint.

"Besides this, it is a general rule that the controlled banks are charged a fixed monthly fee for being looked after by the home office (an unnecessary and costly burden) besides placing a curb, if not a prohibition, on the initiative of the officers of the local banks thus seriously hindering them from being a real service to their localities, which ought to be served first, and which should be the only consideration of bank officials because it is the primary reason for the existence of the banks. On account of the comparatively small capital resources of these holding companies, an undue amount of borrowing must be resorted to, to the detriment of all concerned, thereby contributing to and creating undue inflation.

"This whole idea of 'chain banking' is unhealthy and dangerous and should be discouraged in every possible way for another reason, and that is, the intermingling of funds between the controlled banks, whether they consist of swapping deposits or securities.

"The legitimate profit in banking cannot and should not stand on or be based on any of these 'extra charges, commissions, or overhead expense to which are chargeable the above mentioned conditions and the desire for extra high interest rates which of necessity are based on not the best grade of securities.

"True banking must be kept on a firm basis and cannot deviate from a reasonable rate of income on investments well secured."

Insects Unsubdued

It is estimated that the total damage every year in the United States caused by a few species of insects amounts to more than \$1,250,000,000, notwithstanding our increasing knowledge of the habits of insects and investigations of new methods of controlling the injurious species. The economic loss due to insects seems to be increasing, in spite of the intelligence of man.

LIBRARY PROGRAM MONDAY EVENING

Entertainment Scheduled for Friday
Evening Postponed to Monday,
November 22

IN HIGH SCHOOL GYM

Lillian Britton of Lowell School
Wins Children's Book Week
Essay Contest

Because of the many other attractions scheduled for this week and the Library entertainment which was to have taken place Friday evening in the high school gym has been postponed to Monday evening, November 22.

The Children's Book Week Essay contest brought a number of very good essays from most of the grade schools in the city. The verdict of the eight who heard the reading of these was unanimously in favor of the essay written by Lillian Britton of the Lowell school, and to her was awarded the prize book. Two of the other essays, that of Bernice Steinfeldt of the Whittier school and of Harold Strickler of the Lowell school were so good that they deserved special mention. In all the essays the idea and grade of the writer were taken into consideration when passing judgement.

The following prize essay, "My Favorite Book Character" by Miss Britton who is 14 years old and in the eighth grade at the Lowell school shows a wonderful knowledge of children's booklore. The manner in which the essay is written is enough to hold one's interest while the philosophy and wisdom of life shown in several passages would warrant the author to be a much older person.

"Through the reading of a great many books we have a host of characters or rather the memory of them put away in some corner of our mind. The greater number of these are from the Land of Make-Believe, probably they are gathering dust because of their being packed away for so long—suppose we put them on

parade. Let us all stand aside while the procession passes and observe them.

"First comes Robin Hood and his merry band of 'followers,' then Captain Kidd in his high topped boots waving the terrorizing skull bedecked flag of his bold hand and strutting pompously; then Evangeline in all her serenity with Gabriel at her side; Peter Pan follows, dancing and singing joyously, still the merry little boy who wishes to be forever young and free. Robinson Crusoe, too, has his place in the procession, with the parrot and other pets as well as Friday, the rescued. The parade continues, each place filled by some character, now the dark skinned princess from the pages of 'Arabian Nights,' now the golden haired sleeping beauties of other nations.

But, hark! Who is that in the old straw hat, big toe entwined to a state of discomfort, (like old Egyptian mummies which have been wrapped in yards of material for preservation) shod over one shoulder and wearing a patched roundabout with a great gap at the nap of it, where aunt Polly gained hold when punishment was inflicted with the aid of a felt slipper? (There is no need to state that this certain object 'lived up' to its reputation of being 'felt.')

Of course it's Tom Sawyer, our favorite book character marching so happily by, (as if he didn't know that Aunt Polly was beside him armed with that ever present slipper and the thimble finger) whistling a merry new whistle which he has but recently learned. From the jagged edged holes in his hat, his curly tangled hair projects in various parts of the crown.

Hurrah! Hurrah! for Tom Sawyer. Why have I selected this boy from the crowd of characters; there are many others we could choose if we wished: Little pirates, fighting braves, gentle and brave knights and lovely princesses—why then, choose this very common place character? Certainly we have some reason for our choice, it is simply this: Tom is a one hundred per cent human boy with his adventurous and emotional mind, (where girls are concerned), He represents practically every

healthy boy in the western hemisphere; he was superstitious, kind hearted, mischievous lad who was apt to be troublesome or too high spirited at times. What boy has not most of these characteristics—very few, I am sure.

Although Tom sought revenge on "Siddy the tell-tale" and often carried out his plan of it, by fair means or foul, he was not at heart a cruel boy. He loved the great-out-of-doors and the adventure that it held; he wished to be free to go where and how he chose, but he could not forever look through rose colored spectacles for just as the atmosphere commenced to take on a rosy appearance, unwhitewashed fences and immense wood piles loomed into view causing life to seem hollow, and death preferable to an adventure seeking boy.

In every boy's life this happens. If the obstacles are not in the form of unwhitewashed fences or a cord of wood, the latter, probably the most common, others are continually placed in a youth's life to vanquish his happiness.

Tom's pride in Huckleberry Finn was not out of the ordinary, for all boys find a unsurpassed novelty in their friendship with boys whom they are forbidden to associate with.

Each of Tom's traits, many of his experiences, many of his hardships

and unfortunate circumstances have been experienced by boys in every day life.

Characters such as Tom Sawyer are not found in every book; in fact such characters are very few and although many authors attempt to describe human nature, few have succeeded. I feel that one author has accomplished this by his characterization of Tom Sawyer.

Three cheers for Tom Sawyer! Three cheers for the best character in the book world.

Silver Fox Most Valued

The biological survey says that the silver fox is the most valuable individual pelt. The marten brings the highest price for the size of the pelt of all North American fur-bearing animals, while, taking into consideration, the total annual catch, the muskrat brings the greatest returns.

Little Ruth Thankful

Little Ruth, age four years, was given a box of old ribbons and flowers and an old hat with which to amuse herself while her mother went downtown. She trimmed the hat and put it on her head and surveyed herself from all sides in the large mirror, then remarked softly to herself, "I look pretty now, thank goodness."

MINNESOTA ROAD PLAN

THAT Minnesota has a road plan in advance of many other states is evident from a study of the address given by Secretary of Agriculture W. M. Jardine before the annual meeting of the American Association of State Highway officials at Pinehurst, N. C., November 9.

Mr. Jardine pointed out three obstacles which stand in the way of the most efficient use of available road funds and the completion of the federal program, in some states. Not one of these obstacles exists in Minnesota.

After discussing the great advance made in road building through research and application of scientific management during the last decade, Mr. Jardine said: "Not all the exact information it is possible to obtain, however, will suffice to provide an orderly and systematic improvement of the main roads in the states which still rely upon the financial assistance of the counties to carry out the state program. Certainly there has been experience enough to prove that complete connection of main arteries is practically impossible so long as there is dependence upon county financing."

One of the primary conceptions of the federal aid plan, Mr. Jardine said, was to expedite the completion of an adequate system of interstate highways.

"It is my feeling that the progress in the completion of transcontinental roads is gratifying, but do not lose sight of the fact that the lack of transstate routes in the agricultural states of the Mississippi Valley is not in keeping with the development, east and west. In specific states this condition is brought about more largely by the feature referred to above, that is, dependence upon county financing, than upon any lack of need of such roads or lack of response on the part of the State Highway departments."

In Minnesota the U. S. numbered routes are all kept in shape for good going, from one state line to the other. Nearly all the central western states except Minnesota depend on the counties for financing primary roads. Minnesota is also recognized as having one of the best state wide maintenance systems in the Union.

C. M. Babcock, Minnesota Commissioner of Highways and a former president of the association, attended this meeting. It was attendance there that prevented his speaking at the Brainerd Pavement Celebration.

Brainerd is interested in U. S. highway plans for one or more of these routes will pass through Brainerd. We are sure of one route, that going from east to west.

ADS HAVE NEWS VALUE

IN these days of modern newspaper making there are many things that go to make up a well balanced family visitor—first, perhaps the news, world, country, state and local, with society events of especial interest.

Editorials have a place, and if they are the fearless kind will get both approval and caustic criticism. Possibly those who do not agree with the editorial views really get more out of them than those who do agree, because when a man does not agree with you he has to put on his thinking cap and find a reason to back up his opinions that you are wrong, and the man who sets you to thinking is your real friend.

There are the sports with a big field of readers, and there are special features on health and science that have their place along with fiction and the comic strips.

All these are necessary, but there is another real news source that represents dollars in saving, and that is in the advertisements. The era of price giving and keen competition furnish the housewives and others with news of real bargains. If you doubt this watch the crowds that flock to a store that puts on a reduction sale.

A good up-to-date newspaper, like good roads, is a paying investment in dollars and cents—because by watching the advertisements any family can save several times the subscription price—and have all the other features as a free gift.—*St. Cloud Daily Journal-Press.*

TOO MUCH HORN BLOWING

A CAMPAIGN against useless sounding of automobile horns has been started by the American Automobile association. Too frequent use of the horn, it is suggested, has caused "an approximation of bedlam" in hundreds of communities, says a statement of the A. A. A. In some cities autoists are required to sound their horns at every crossing, in other places they do it from force of habit, and this has made pedestrians callous to the warning signals.

"Although the pedestrian has the right of way at the intersection, thousands of motorists will dash up to the corner and count on a horn signal frightening the pedestrian out of his legal rights. It gives motorists a reputation for selfishness and discourtesy and the elimination of this one form of noise would go an enormous way in healing the breach that exists between car owner and the non-motorist."

Another way in which excessive noise may lead to accidents is in passing machines, says the statement. "A great many drivers are not content with a warning blast or two when they want to pass another machine. They blow the horn so excessively that, too often, the man in the machine ahead regards it as a challenge and refuses to grant a fair share of the road. Hundreds of races on the highway that have been attended by fatal or near fatal results have been started in this way."

UNCLE JOE CANNON

UNCLE JOE CANNON has been laid to rest. One thing about Uncle Joe that endeared him to all constituents and even his enemies is the fact that when he took a stand on anything, he stood foursquare to the winds of opposition. He never dodged an issue.

When he stood for the tariff, he stood for it from opening schedule to the finish and protested any changes made. When he was speaker of the house, Congress and the country were aware they had a speaker. He has been called domineering, arbitrary, czar-like, but no one ever impinged his honesty. He ruled the house with a gavel of iron and woe betide the luckless head that encountered his displeasure.

A THRIFTY wife, says the Bemidji Daily Pioneer, is one who has considered cutting down Willy's balloon trousers to fit dad.

"SOME WILD NOTIONS I HAVE KNOWN"

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

"THE BEST ARMOR IS TO KEEP OUT OF GUNSHOT"

The best armor is a righteous cause. It is better to suffer wounds while fighting for righteousness than to live in peace having deserted duty.

It is easy to go through life and escape gunshot wounds. All one needs to do is to refuse to express an opinion, take sides, pass judgment, have an idea or do your own thinking. The man who does these things will be criticised but seldom.

The preacher who never attacks sins carries few scars or service medals. The editor who never champions a cause is soon forgotten and lives on in safety and seclusion. The lawyer who never pleads the case of oppressed right against entrenched wrong may make money but he grows lean of soul. The best soldiers, in war or peace, are those who forget the danger of gunshot wounds in the enthusiasm of their effort for their cause.

Humanity's great causes have always been won in no man's land in the midst of danger. The world's immortals, heroes, and saviours have all been born on some battle field in the midst of fire.

The most ignoble and unheroic figure in any community is the timid soul who lurks always just out of gun range waiting for the battles to be won before he presents himself for a share of the spoils.

Luther at Worms, Washington at Valley Forge, Cyprian before the lions, Nathan Hale and Edith Cavell before the firing squads and thousands of humble and nameless who have stood firm in the presence of danger, strong in the consciousness of a righteous cause, are more glorious in one hour with bleeding wounds than all the safe and discreet cowards out of range.

It Was a Criminal Success

MARIAN was sorry she had written that letter—but she was not sorry soon enough. Her regret came after she had mailed it. It was a trivial thing they had fallen out over, any way—Marian Ormsby and Harold Graves. Marian's letter to Harold was somewhat lengthy. But its meaning was clear—she gave Harold a pre-nuptial divorce on the ground of incompatibility of temper, his fatal heresy with regard to bobbed hair and his execrable taste in neckties. All was over between them! There were a few side remarks about obstinacy, self-sufficiency and ill nature.

Harold had been rather irritable and didactic, it is true. He had been annoyed by tangled business matters that day, the tangle caused by careless or stupid clerks and the onus thrown on him. Under such circumstances you could not expect a young man to be in an absolutely angelic mood—even if he was in love and his best girl was with him. All things considered, Harold had behaved very well. And Marian, who knew of his troubles, began to realize it when she came to think things over—after she had mailed the letter.

When Harold got the letter he read it over and over again. At first he thought of writing an answer in the argumentative vein. No, that would not do; it would only be continuing the quarrel. Then he considered writing one in a humble and apologetic strain, pleading for forgiveness and begging to be taken again into favor. But he wasn't humble and he told himself that Marian had as much to apologize for as he had. A humble, cringing letter would be insincere—and besides Marian did not like humble and cringing men any too well. He loved Marian with all his heart—but still he wanted to stand on something like an even footing with her.

Then he took a sheet of letter paper and sat down at his typewriter. Marian always used a typewriter and so did Harold; and they were of the same make. Harold wrote only two brief sentences. Then he took his production from the typewriter and laid it on his writing desk; laid Marian's letter beside it; got a piece of tissue paper and traced Marian's signature; which signature he transferred to the bottom of the few lines he had just typed. The forger grinned as he did it.

Then he folded the letter he had thus completed, placed it in an envelope, sealed it and directed it to himself. From a letter he had received that day he soaked off a canceled postage stamp and having dried it affixed it with masticage to the envelope into which he had placed his forgery. All this being accomplished he ordered his car brought up from the public garage where he kept it and drove over to see Marian.

When Harold came bursting into her presence, all smiles and with a cheery greeting, she gave a little start and cried: "Oh, Harold!" Then recollecting herself she drew away from him as he tried to catch her in his arms and said haughtily, "Mr. Graves! What does this mean? Keep away from me, sir. Explain yourself. This is an outrage. Did you not get my letter?"

"Sure thing," replied Harold affecting surprise. "That's why I hurried over. Marian, you are the real thing and I always knew you were. Just a little tired last night, eh? And I didn't make allowances. The fault is all mine, my dear. I guess I was a little peevish, too. There is nothing to patch up. We are just two old sissies, that's all. But it was so good of you to write as you did and to take all the blame yourself. Come, give us a kiss." And he took one in spite of her struggles and smothered protests.

"Now," said Marian when she had finally broken away and sunk into a chair—"now, perhaps, you will tell me what you have been talking about. What do you mean by my letter taking

all the blame to myself? Are you crazy? or can't you read?"

"Why, I mean what I say," replied Harold. "What are you driving at? Here is your letter." He had torn off one end of the sealed envelope so that the letter had every appearance of having gone through the mail and been opened by its recipient. Without glancing at the address—which might have excited suspicion from its lack of similitude to her own writing—Marian drew out the letter and read it.

"Why, why?" she gasped, "what does this mean? I never wrote this letter."

"Isn't that your signature?" asked Harold sternly.

"Yes, it appears to be," said the puzzled Marian.

"The letter read: 'Dear Harold—I guess I was a little irritable last night and didn't mean half I said. Come around tonight and we will patch up our little lovers' quarrel. With love, Marian.'"

"I never wrote it. I can't understand it," said the perplexed girl, "but it goes." A week later, when Harold told her of his forgery they came near having another tiff.

Of Course Not

"Clara's better looking now that she's had her face lifted."

"Yes, she isn't down in the mouth any more."

Nothing to Worry About

"Some women," an Indiana paper thinks, "are unhappy because their husbands overdo the job of trying to make them happy." Some, perhaps, but not enough to worry about.—*Capner's Weekly.*

Quick Pile Relief

Dr. Leonhardt's Hem-Roid is guaranteed to banish any form of Pile misery, or money back. It gives quick action even in old, stubborn cases. Hem-Roid is a harmless tablet that removes blood congestion in the lower bowel—the cause of piles. It brings joyful relief quickly and safely or costs nothing. H. P. Dunn, Johnson's Pharmacy and druggists everywhere sell it with this guarantee. —Advt.

SALT'S FINE FOR ACHING KIDNEYS

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive, makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. —Advt.

BRAINERD 25 YEARS AGO

From the Daily Dispatch

Nov. 16, 1901

A. and J. C. Robertson, T. A. and J. A. Martin and M. Wiekund of this city and Nate Featherstone of Red Wing returned yesterday from a three days deer hunt. They brought in twelve nice deer.

William Rogers has accepted a position with the Edstrom Laundry and will handle business for this popular establishment in the city.

A special meeting of the board of education was held on Saturday evening with President Hagberg in the chair. There were present Messrs. Dickinson, Storm, Johnson, Mahlum, and Groves. The meeting had been called especially to elect officers of the board for the ensuing year. On the ballot for president, Chas. Hagberg was the unanimous choice of the members and was re-elected to this office. Eight ballots were taken on the office of vice president which finally resulted in the election of L. P. Johnson. George Keene, and Mons Mahlum were elected

treasurer and secretary respectively for the ensuing year on the first ballots. The salary of Martin Swanson as janitor of the Washington building was raised to \$50 per month. The salary of Secretary Mahlum after Dec. 1, 1901 was fixed at \$25 per month. On motion the chair appointed Messrs. Johnson, Erickson, and Groves a committee to revise the by-laws of the board. The secretary was authorized to advertise for bids for 650 cords of wood for the city schools.

Brainerd will soon boast of as strong an order of Catholic Foresters as there is in the northern part of the state. A preliminary meeting was held yesterday afternoon and there were about 50 young men of the city present. The feasibility of organizing was discussed and the matter was favorably considered. The order will perhaps start out with a membership of at least 75.

MARIAN was sorry she had written that letter—but she was not sorry soon enough. Her regret came after she had mailed it. It was a trivial thing they had fallen out over, anyway—Marian Ormsby and Harold Graves. Marian's letter to Harold was somewhat lengthy. But its meaning was clear—she gave Harold a pre-nuptial divorce on the ground of incompatibility of temper, his fatal heresy with regard to bobbed hair and his execrable taste in neckties. All was over between them! There were a few side remarks about obstinacy, self-sufficiency and ill nature.

Harold had been rather irritable and didactic, it is true. He had been annoyed by tangled business matters that day, the tangle caused by careless or stupid clerks and the onus thrown on him. Under such circumstances you could not expect a young man to be in an absolutely angelic mood—even if he was in love and his best girl was with him. All things considered, Harold had behaved very well. And Marian, who knew of his troubles, began to realize it when she came to think things over—after she had mailed the letter.

When Harold got the letter he read it over and over again. At first he thought of writing an answer in the argumentative vein. No, that would not do; it would only be continuing the quarrel. Then he considered writing one in a humble and apologetic strain, pleading for forgiveness and begging to be taken again into favor. But he wasn't humble and he told himself that Marian had as much to apologize for as he had. A humble, cringing letter would be insincere—and besides Marian did not like humble and cringing men any too well. He loved Marian with all his heart—but still he wanted to stand on something like an even footing with her.

Then he took a sheet of letter paper and sat down at his typewriter. Marian always used a typewriter and so did Harold; and they were of the same make. Harold wrote only two brief sentences. Then he took his production from the typewriter and laid it on his writing desk; laid Marian's letter beside it; got a piece of tissue paper and traced Marian's signature; which signature he transferred to the bottom of the few lines he had just typed. The forger grinned as he did it.

Then he folded the letter he had thus completed, placed it in an envelope, sealed it and directed it to himself. From a letter he had received that day he soaked off a canceled postage stamp and having dried it affixed it with muscilage to the envelope into which he had placed his forgery. All this being accomplished he ordered his car brought up from the public garage where he kept it and drove over to see Marian.

When Harold came bursting into her presence, all smiles and with a cheery greeting, she gave a little glad start and cried: "Oh, Harold!" Then recollecting herself she drew away from him as he tried to catch her in his arms and said haughtily, "Mr. Graves! What does this mean? Keep away from me, sir. Explain yourself. This is an outrage. Did you not get my letter?"

"Sare thing," replied Harold affecting surprise. "That's why I hurried over. Marian, you are the real thing and I always knew you were. Just a little tired last night, eh? And I didn't make allowances. The fault is all mine, my dear. I guess I was a little peevish, too. There is nothing to patch up. We are just two old sills, that's all. But it was so good of you to write as you did and to take all the blame yourself. Come, give us a kiss." And he took one in spite of her struggles and smothered protests.

"Now," said Marian when she had finally broken away and sunk into a chair—"now, perhaps, you will tell me what you have been talking about. What do you mean by my letter taking

all the blame to myself? Are you crazy? or can't you read?"

"Why, I mean what I say," replied Harold. "What are you driving at? Here is your letter." He had torn off one end of the sealed envelope so that the letter had every appearance of having gone through the mail and been opened by its recipient. Without glancing at the address—which might have excited suspicion from its lack of similitude to her own writing—Marian drew out the letter and read it.

"Why, why," she gasped, "what does this mean? I never wrote this letter."

"Isn't that your signature?" asked Harold sternly.

"Yes, it appears to be," said the puzzled Marian.

"The letter read: 'Dear Harold—I guess I was a little irritable last night and didn't mean half I said. Come around tonight and we will patch up our little lovers' quarrel. With love, Marian.'"

"I never wrote it. I can't understand it," said the perplexed girl, "but it goes." A week later, when Harold told her of his forgery they came near having another tiff.

Of Course Not

"Yes, she isn't down in the mouth any more."

Nothing to Worry About

"Some women," an Indiana paper thinks, "are unhappy because their husbands overdo the job of trying to make them happy." Some, perhaps, but not enough to worry about.—*Capner's Weekly.*

Quick Pile Relief

Dr. Leonhardt's Hem-Roid is guaranteed to banish any form of Pile misery, or money back. It gives quick action even in old, stubborn cases. Hem-Roid is a harmless tablet that removes blood congestion in the lower bowel—the cause of piles. It brings joyful relief quickly and safely or costs nothing. H. P. Dunn, Johnson's Pharmacy and druggists everywhere sell it with this guarantee. —Adv.

SALT'S PINE FOR ACING KIDNEYS

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. —Adv.

BRAINERD 25 YEARS AGO

From the Daily Dispatch

Nov. 16, 1901

A. and J. C. Renerton, T. A. and J. A. Martin and M. Wicklund of this city and Nate Featherstone of Red Wing returned yesterday from a three days deer hunt. They brought in twelve nice deer.

William Rogers has accepted a position with the Edstrom Laundry and will hustle business for this popular establishment in the city.

A special meeting of the board of education was held on Saturday evening with President Hagberg in the chair. There were present Messrs. Dickinson, Storm, Johnson, Mahlum, and Groves. The meeting had been called especially to elect officers of the board for the ensuing year. On the ballot for president, Chas. Hagberg was the unanimous choice of the members and was re-elected to this office. Eight ballots were taken on the office of vice president which finally resulted in the election of L. P. Johnson. George Keene, and Mons Mahlum were elected

treasurer and secretary respectively for the ensuing year on the first ballots. The salary of Martin Swanson as janitor of the Washington building was raised to \$50 per month. The salary of Secretary Mahlum after Dec. 1, 1901 was fixed at \$25 per month. On motion the chair appointed Messrs. Johnson, Erickson, and Groves a committee to revise the by-laws of the board. The secretary was authorized to advertise for bids for 650 cords of wood for the city schools.

Brainerd will soon boast of as strong an order of Catholic Foresters as there is in the northern part of the state. A preliminary meeting was held yesterday afternoon and there were about 50 young men of the city present. The feasibility of organizing was discussed and the matter was favorably considered. The order will perhaps start out with a membership of at least 75.

WILLIAMS' KIDNEY PILLS

Have you overworked your nervous system and caused trouble with your kidneys and liver? Have you pains in loins, side and back? Have you a flabby appearance of the face and under the eyes? If so, use Williams' Kidney and Liver Pills. For sale by all druggists. Price 50c. WILLIAMS' MED. CO., Prop., Cleveland, Ohio. For sale at Dunn Drug Store.

What is the United Press?

As you read your newspaper today you note that many dispatches are labelled "By UNITED PRESS," or the abbreviation, "U.P."

The UNITED PRESS Associations is a famous world-wide system for the accurate and speedy gathering of news.

News is transmitted to central points from which it is distributed over telegraph or telephone wires to more than 1,100 newspaper offices in 36 nations.

Sport news, financial news, political news, international news—written by highly trained specialists—sent with amazing speed—vouched for as to accuracy and reliability—form the cargo of this vast importing and exporting business called the UNITED PRESS.

Because of the enterprise of the UNITED PRESS, because of its marvelous facilities extending over the world, because of its prestige and authority and unfailing dependability, the UNITED PRESS newspaper of any city is always a superior newspaper.

This is a UNITED PRESS newspaper—an important fact to remember.

The Brainerd Dispatch

Don't Tell the Wife
BY WILLIAM B. COURTNEY
Copyright 1926 Warner Bros. Pictures, Inc.
"DON'T TELL THE WIFE," starring Irene Rich, is a Warner Bros. picturization of this novel.

SYNOPSIS

Ranny Forbes, star polo player, and his beautiful wife, Joan, are temperamental mismatches. Joan wants a divorce; but Ranny confides to his chum, Clay, that he loves her. He secretly discovers that she loves another man, Abner Gratman. Ranny, lumber king with whom Ranny has pending a gigantic business deal, wagers fifty thousand on Ranny's team in the International Match. Victory will mean business good will. Ranny learns that the wager is with Abner Gratman! Abner, unobserved, maliciously cuts Ranny's stirrup strap. Distracted as he watches Joan flirt with Abner, Ranny neglects his playing. The rival captain is about to score. Ranny pursues—

CHAPTER II—Continued

If a pony had speed Ranny was the man to draw it out. Milkmaid had speed, and Ranny tugged it out of her dead game little heart now. Breath-fast, like a gull scudding in the teeth of a stormy wind, Ranny and Milkmaid floated rather than raced down that field, through the six streaming players as though they had been standing stock still, and foot by foot drawing up on the thundering Argentine captain. Not an ounce of Ranny's weight was in the stirrups—knees and flanks glued him to Milkmaid's neck, and the holding touch of the ball of his foot in the stirrup was light as feather down.

Now the Argentine captain swung his mallet at the ball. Just a mechanical formality seemed necessary to register the goal. But Ranny frantically threw Milkmaid forward and stood up in his stirrups for a counter stroke.

The heavy strain of his foot was all that was needed to tear through the film of strap left by Abner's

Pinioned beneath lay Ranny

knife. The stirrup broke away, swaying Ranny's weight out of the saddle, off side.

Good horseman though Ranny was, sure footed though Milkmaid was, their charge had too much impetuosity for the disaster to be averted. As Ranny pitched loose from the saddle, his mallet became entangled in the little pony's forelegs. Milkmaid somersaulted, pivoted on her head while her legs thrashed wildly in air, then collapsed in a heap and lay very still.

And pinioned beneath her lay Ranny, also very still.

CHAPTER III

Even as the goal watcher's flag went up and down, signalling a point for the Saffron, all elation went out of the minds of the Argentine Captain and his comrades, all challenge was forgotten by the Americans, and all official austerity forsook Clay Varick. A common impulse dominated each and every man; get to Ranny! At breakneck gallops they anxiously converged upon him.

Simultaneously, another succoring rush began from the paddock. The little bandy-legged Cockney lead that—his eyes wide with fear; and as much, in truth, upon the motionless horse as upon the equally motionless master.

On the sidelines, following an involuntary gasp of dismay, the good breeding of the spectators quickly asserted itself in a general repression of outward emotion. But the sympathy and concern were none the less intense for the silence.

Joan, springing from the car as she saw Ranny go down, paused on the running board—on tiptoe, the better to see; a rigid, insurmountable statue. Only Abner, closest to her, could note the delicate, breath-holding quivering of her nostrils and lips, the cloud behind her amber eyes. And jealousy contributed in no small measure to his perception.

"Oh, he's all right," muttered Abner, a blue flame behind his affection. "Just a tumble. They happen in every game."

Joan said nothing—in fact, gave no sign of even having heard Abner. She grew more tense, in fact. For now the dismounted poloists were extricating Ranny from beneath Milkmaid's ruined bulk of beauty and muscle.

Named From Human Body

The Anglo-Saxons gave names to many localities from the supposed resemblance to parts of the human body, as, headland, a neck of land, a tongue of land, the mouth of a river, the brow of a hill, the foot of a hill, an arm of the sea, and so on. Battersea was once known as Peter's eye, or Peter's island; Chelsea was Sheela's eye, and Bernoldsey was Bernold's eye, all of them having been originally islands.

Crops and Weeds

Generally speaking, the larger the crops the fewer the weeds, present. This is especially true with small grain and hay, since good stands of these crops will tend to smother out weeds. Furthermore, pastures that are given good care by top dressings with fertilizers free from weed seeds and by close but not destructive grazing always contain fewer weeds and more grass than those poorly managed.

Few Have Ever Found Humming Birds' Nest

Comparatively few people ever have the pleasure of peeping into a humming bird's nest, to behold those tiny eggs like round white beads, or to see two birdlets which somewhat resemble little beetles.

In the first place, the nest is so small and so resembles the surrounding shrubbery that it is easily overlooked. Then, too, it is so cleverly hidden by its wise builders and so disguised in its construction as to require an experienced eye to discover it.

Built of soft, pliant hairs and adorned with bits of moss and feathers, it forms a downy, cuplike, secluded home. The fairy hummer of Cuba, the smallest of all the humming birds, builds a nest so tiny that it can be covered completely with a copper cent. Its eggs look like two little pearls.

The humming bird, more than 500 species of which have been classified, is distinctly American. In the main, it is a tropical bird, as fewer than 20 species are found in the United States.

The one known to residents of states east of the Mississippi is the beautiful ruby throat, Audubon called humming birds "glittering fragments of the rainbow," so gorgeous are they in color.

Soldier's Name Well "Worth Army Corps"

When the French revolution flamed out, the aristocratic La Tour d'Auvergne, disdainful of his fellow officers to leave France, threw in his lot with the revolutionists. Time after time he emerged from battle with his clothing torn by bullets, but unharmed, and so he gained his reputation of bearing a charmed life. Stories of his amazing courage reached the enemy and inspired terror.

This reputation enabled him to capture San Sebastian, Spain, single-handed. He arrived in a little boat bearing a tiny cannon, disembarked, marched to the citadel, announced he was the advance guard of the French army and demanded that the place be surrendered. The Spanish commandant was so intimidated that he was willing to surrender, but asked La Tour d'Auvergne to fire one shot, so it could not be said he had given up without being attacked. La Tour d'Auvergne obligingly consented. A volley replied and then the commandant capitulated.

Trombone Long Popular

The trombone has been recognized as a meritorious musical instrument for centuries. The Romans knew it as the tuba ductilis, and there is some evidence that the trombone was known to the ancient Greeks. The bands that played at the fetes of the doge of Venice when that city was queen of the Adriatic, consisted of trombones only, according to some historians. It is also on record that there were ten trombones in the state band of Henry VIII and six in the state bands of Queen Mary and Queen Elizabeth. Really eminent musicians have sometimes played the trombone. Sir George Macfarren preferred it to all other instruments in the orchestra and frequently played it at concerts conducted by Sir Michael Costa. It also was an instrument in which Alexander II of Russia took great delight.—Vancouver Province.

He Got His

Diamond Jim Brady, who used to consume at one sitting at Rector's in New York, by the testimony of George Rector, two, three and four dozen big oysters, a dozen soft shell crabs, six or seven full-grown lobsters, a huge steak, topped off with coffee, an entire tray of pastries, and a two-pound box of candy, washed down with three and four carafes of orange juice, was warned often against the many social leeches that preyed on his lavish hospitality.

"You shouldn't encourage these people," George Rector remonstrated. "They're only making a sucker out of you."

"Being a sucker is fun," Diamond Jim replied, "if you can afford it."

Cyrus Used Boiled Water

That a safe water supply was considered essential to an army by the military leaders of ancient times is evident from a statement in Herodotus that Cyrus the Great of Persia carried with him on his military expeditions boiled water from the Coaspes river, transporting it in silver vessels on four-wheeled wagons. This famous general died about 530 B. C.

There is a later record that Aristotle advised Alexander to boil the water he took with him on desert marches to keep it from getting sour. It took nearly twenty-five centuries for men to take advantage of the lessons that these ancient rulers had learned.—Hygeia.

Cease Worrying

There is no doubt that in our day and generation more people suffer because of worry than of work. The following bulletin has been issued by doctors against worrying: "So far as is known," the bulletin says, "no bird ever tried to build more nests than its neighbor; no fox ever fretted because he had only one hole in which to hide; no squirrel ever died of anxiety lest he should not lay by enough nuts for two winters instead of one; and no dog ever lost any sleep over the fact that he did not have enough bones laid aside for his declining years."

IN LIGHTER VEIN

Relief

"How can I keep my feet dry?"
"Try our pumps," replied the bright shoe clerk."

Eat and Grow Fat

"What makes Alice so heavy, do you suppose?"
"Her husband is a chef."

Modern

Hatz—Where's your home?
Andhatz—It's in the garage just now.

Those Wags

"Well, how did you enjoy your outing?"
"Sensless all the time."
"Sort of an inside outing, eh?"

Between Bridge Players

"Playing bridge much lately, Mittie?"
"Not much. Haven't played since yesterday."

Kissed

"You are sun kissed," remarked Marge.
"There were others," announced Maude.

Japanese Actors Rank High in Female Parts

Early in the long reign of the Tokugawa shogunate, women were forbidden to appear on the stage in Japan. That was the Puritan period of Japanese history and the shoguns decided that women on the stage corrupted the country's morals. The prohibition resulted in the development of a remarkable group of men who impersonated women.

During the centuries this art was so richly developed that today it is difficult for one to believe that some of the actors are not women. Secrets of the art have been handed down from father to son. Great impersonators who had no sons adopted capable boys and trained them from childhood.

The greatest living male "actresses" are Balko and Ukyemon, both more than seventy years old. They still essay the roles of young and beautiful geisha girls, and Japanese audiences are so pleased with their art that they forget the ravages of age.—New York Evening Post.

Honor Gompers' Memory

The memory of Samuel Gompers, former president of the American Federation of Labor, will be suitably honored in the new building of the International labor office at Geneva. Although the United States is not a member of the international labor organization, Mr. Gompers took a keen interest in the association from its inception, and a leading part in the formation of its charter.

Wisdom and Leadership

There is no man so ignorant that he cannot give the wisest some information he does not possess. Yet this is no reason why the wisest man should not do all in his power to relieve ignorance. The wisest men should be leaders in popular education.—Grit.

Will Preach Buddhism

The first great missionary venture of one of the most famous old Oriental religions is being planned by the supreme prelate of the Buddhist religion. Both American and Japanese youths, mostly graduated from the colleges in Japan, will be the first missionaries sent to the United States.

FOOTBALL SEASON TO CLOSE SATURDAY

FOUR MAJOR UNDEFEATED TEAMS IN RACE

STILL HAVE HOPES FOR THE COVETED 1926 FOOTBALL CROWN

MICHIGAN PLAYS SECOND GAME OF SEASON WITH MINNE-SOTA

By HENRY L. FARRELL
(United Press Staff Correspondent)
New York, Nov. 18.—Four of the major undefeated teams that still have hopes for the 1926 football crown will feature a program Saturday that just about brings the season to a close.

With the exception of a scattering of Thanksgiving games, one or two big games for November 27, Notre Dame's final game in California and a possible post season intersectional game or two, the season will end this week.

Notre Dame, Stanford, New York University and Brown will get into action again but the Navy will rest for a week in preparation for the Army game, and Alabama will be idle until Thanksgiving day.

Notre Dame against Drake and Brown against New Hampshire State ought to keep their imposing records unblemished. But New York University is expecting the hardest game of the season with Nebraska and Stanford may have a severe test against California.

California, according to dope from the Pacific coast, is at least two touchdowns better than California.

The big Army team which was defeated last week by Notre Dame, will play Ursinus in a game that is not causing much worry to the coaches who will give the regular players as much rest as possible.

Three important games are scheduled in the western conference. Michigan and Northwestern, leading the Big Ten, will try to keep their conference records unblemished. Michigan will play its second game of the season against Minnesota and Northwestern will play Iowa.

Ohio State and Illinois will meet in another important game although there is no bearing on the conference title attached unless Michigan and Northwestern should flop.

Like 'Em and Tease 'Em

At twenty-one a man is a musical instrument given to the other sex, but it is not as instruments learned at school, for when she sits down to it she cannot tell what tune she is about to play. That is because she has no notion of what the instrument is capable. Babbie's kind-heartedness, her gaiety, her coquetry, her moments of sadness, had been a witch's fingers, and Gavin was still trembling under their touch. Even in being taken to task by her there was a charm, for every pout of her mouth, every shake of her head, said: "You like me, and therefore you have given me the right to tease you." Men sign these agreements without reading them. But indeed, man is a stupid animal at the best, and thinks all his life that he did not propose until he blurted out: "I love you."—J. M. Barrie.

CALL 74

IMPERIAL CONFERENCE TO ADJOURN SOON

London, Nov. 18.—(UP)—It was expected today that the imperial conference of English and dominion premiers and other representatives of the empire would be able to adjourn November 23. The conferees were rapidly completing their work.

Chicago—Hoping to eke out one win in the conference schedule Stagg's Chicago team is undergoing the hardest practice sessions of the year.

Bloomington, Ind.—Considerably outclassed on paper, the Hoosier football team is striving to get into shape for the tussle with Purdue Saturday.

Married Woman—Ah, my husband has always been a lucky man. As a child he was thrown by a horse, but wasn't injured. As a youth the ice broke beneath him, but he wasn't drowned. As a young man he was caught in an Alpine avalanche, but escaped uninjured. . . .
Bachelor—And he has now been married 20 years and is still alive.—Tit-Bits.

PREHISTORIC ANCESTORS

Miss Wolfcub—Miss Clamshells says she's engaged.
Miss Bobcat—Well, she's not. That black eye she's showing is just make-up. She put it on with charcoal.

Artistic Egoism

The katydid a tune doth play
With melody precarious,
And values a hind leg, they say,
More than a Stradivarius.

Tiresome Custom

Once there was a child who had her memory jogged again and again to say, "Thank you." When brother passed the candy she took a big piece, but she said not a word. "Say thank you!" commanded mother.
"Oh, dear me," she said in a bored tone, "I'm getting sick of this thank you business!"

NOTRE DAME AND NAVY NOW FACE TWO BIG TASKS

AIM TO SURVIVE THE SEASON AS UNDEFEATED TEAMS

TO MAKE SECURE CLAIMS FOR NATIONAL CHAMPIONSHIP

By HENRY L. FARRELL
(United Press Staff Correspondent)
New York, Nov. 18.—Notre Dame and the Navy, two of the greatest football teams of the year, now face the task of surviving the season undefeated and then making their claims for the national championship.

Notre Dame, in a great victory over the Army, came as close to any certainty that football has for a mythical title but that very victory may turn out to be the means of dispute.

The Navy has only one more game and if the Navy should happen to beat the Army in Chicago on November 27 and pile up a bigger score than 7 to 0, by which Notre Dame beat the Cadets, the Midshipmen will find themselves in fine voice, for some first class claiming.

Notre Dame has three more games to play and if Knute Rockne's fine young team wins from Drake, Carnegie Tech and Southern California, Notre Dame will be able to show a season's performance that no other team can equal.

If the Army should win from the Navy—and the Cadets certainly are not to be condemned to death because of the loss to Notre Dame—the claim of Notre Dame will be even stronger.

The Navy has escaped defeat so far on a heavy schedule against Purdue, Drake, Richmond, Princeton, Colgate, Michigan, West Virginia Wesleyan and Georgetown. It is true that the Midshipmen won fluky victories over Colgate and Princeton but there was nothing fluky about the manner in which Michigan was defeated, and Michigan is one of the strongest teams in the country.

The Army plays Ursinus Saturday and even though strange things have been happening all season, the Cadets certainly ought to win and advance on the Navy in the season's finale in good shape.

Brown and LaFayette, undefeated among the major eastern teams, have not much of a claim for an equal footing with Notre Dame, the Navy or the Army.

The critics who saw Notre Dame win from the Army have been trying to decide among themselves if Rockne's 1926 team is the greatest he ever developed.

Rockne said before he left New York that it is not. He said it was a working team as good as some of the others but it did not have the individuals to compare with Gipp, Walsh, Stuhldreher, Crowley, Miller, Layden and others.

But after watching the parade of backs he threw into the game against the Army, it was hard to figure how he could expect more better backs than he showed.

READ THE WANT ADS DAILY

ALONG THE SIDELINES

South Bend, Ind.—"If they can't play football without scrimmage practices at this stage of the game, they're hopeless." Knute Rockne, coach of the Irish said in announcing that Notre Dame will have no more scrimmages this year.

Ann Arbor, Mich.—Thirty five members of the Michigan squad leave here this afternoon to meet the Gophers Saturday in what is expected to be Michigan's hardest conference game.

Madison, Wis.—Snow flurries and unseasonably cold weather have hampered the Wisconsin football team in practice this week but the Badgers are confident of winning from Chicago Saturday.

Champaign, Ill.—Rated as the under dog Coach Bob Zuppke's Illinois team hopes to snatch a win out of the game with Ohio State Saturday and thereby throw another upset at the experts.

La Fayette, Ind.—Defensive practice designed to perfect plays to stop

the Indiana offensive Saturday are the center of attention in the camp of the Purdue football team.

Columbus, O.—Marty Karow, hurt in the Michigan game, is back in a uniform and will start for Ohio State against Illinois Saturday.

Iowa City—Perfection of an aerial attack designed for use against Northwestern Saturday is the principal work in the Hawkeye camp this week.

Evanston, Ill.—Expecting little trouble with Iowa Saturday Northwestern's football team will do little work the rest of the week. A victory over Iowa would give the Purple an undefeated record for the season and at least a share in the conference championship.

Minneapolis—Practicing in the worst weather a Minnesota team ever has faced, the 1926 Gophers are hard at work perfecting offensive plays for use against Michigan Saturday. Despite an early season defeat by the Wolverines, Minnesota is rated an even money choice in the betting.

FOOTBALL SEASON TO CLOSE SATURDAY

FOUR MAJOR UNDEFEATED TEAMS IN RACE

STILL HAVE HOPES FOR THE COVETED 1926 FOOTBALL CROWN
MICHIGAN PLAYS SECOND GAME OF SEASON WITH MINNE-SOTA

By HENRY L. FARRELL (United Press Staff Correspondent)
New York, Nov. 18.—Four of the major undefeated teams that still have hopes for the 1926 football crown will feature a program Saturday that just about brings the season to a close.
With the exception of a scattering of Thanksgiving games, one or two big games for November 27, Notre Dame's final game in California and a possible post season intersectional game or two, the season will end this week.
Notre Dame, Stanford, New York University and Brown will get into action again but the Navy will rest for a week in preparation for the Army game, and Alabama will be idle until Thanksgiving day.
Notre Dame against Drake and Brown against New Hampshire State ought to keep their imposing records unblemished. But New York University is expecting the hardest game of the season with Nebraska and Stanford may have a severe test against California.

California, according to dope from the Pacific coast, is at least two touchdowns better than California.
The big Army team which was defeated last week by Notre Dame, will play Ursinus in a game that is not causing much worry to the coaches who will give the regular players as much rest as possible.
Three important games are scheduled in the western conference. Michigan and Northwestern, leading the Big Ten, will try to keep their conference records unblemished. Michigan will play its second game of the season against Minnesota and Northwestern will play Iowa.
Ohio State and Illinois will meet in another important game although there is no bearing on the conference title attached unless Michigan and Northwestern should flop.

Like 'Em and Tease 'Em

"MARL" MURPHY IS BIG GAME HUNTER CHAMPION

Hunting Experiences Carry a Person
From Alaska to
South Africa

SHOOTS A GRIZZLY

D. G. Peterson, Gull River Has Shot
187 Wolves in
11 Years

Now is the time of the year for the telling of hunting stories, not fish stories, the fire side stories of great conquests over ferocious animals, bagging of large game, and the thrilling experiences of encounters with wolves.

Walter M. Murphy, or "Marl" Murphy as he is known by his intimate friends is a good County Highway Engineer just like he is a good hunter and a teller of thrilling hunting experiences which take a person from the far north Alaska to Africa, through all parts of Canada and the United States. His is one of the most interesting of lives of great hunters and his stories of great hunting conquests carry one thrilling into the reality.

Walter Murphy hunted bear in British Columbia, Canada back in 1899 and in that one year his rifle brought down from the mountain country a grizzly bear, five cinnamons or brown bears, and two black bears. Fourteen years ago Mr. Murphy hunted antelope in North Dakota when he brought down four in the one year. In this connection Mr. Murphy related that antelope will become fascinated by a piece of red flannel fared at them and will walk without fear almost to the hunter. "Marl" however did not have to resort to this strategy to bag the game.

In South Africa Mr. Murphy hunted the wildebeest and the gnu, bringing down two of each of the species. That was in the year 1906. As a member of the Canadian Northwest Mounted Police for six months, Mr. Murphy travelled through thousands of miles of unexplored country, filled with game. He was also a member of the famous regiment, the Strathcona Horse in Canada in 1901, which saw Boer war service.

The county highway engineer will hunt deer this season some week end and he hopes to bag his game. His previous hunting record shows that he has shot over 30 deer.

And that is not all of Mr. Murphy's hunting experiences for if a person was to relate all it would fill a book.

A Truthful Wolf Story

D. G. Peterson who lives at Gull River is possibly the greatest wolf hunter in this part of the country. Eleven years ago he came to Crow Wing county and located at Gull River. Each year he brings down 16 to 18 wolves and he estimated that he has shot about 187 wolves in the eleven years he has been in the county.

Mr. Peterson brought definite proof that he was a wolf hunter to Brainerd yesterday when he collected the bounty money at the county auditors office for a pelt of a wolf he had shot on Tuesday. The gray brush wolf measured five feet in length. It was the third wolf he had shot this winter already. The bounty on wolves is \$15 a pelt and the pelt generally brings about \$10.

Mr. Peterson said that he shot the wolf when it was running sideways to him at a distance of about 80 rods. Two shots brought it down.

Discussion of wolves lead to the question which is inevitably to be broached when discussing wolf hunting and wolves with a man who knows the haunts and habits of this wild animal, "Will a wolf attack a man?"

Mr. Peterson is a confirmed believer that a wolf will not attack a man, that it is a cowardly animal and that the only time it would show any spark of resentment toward the intrusion of man is when it is cornered.

Saturday is the opening of the deer season in Minnesota and in the county of Crow Wing. Thousands of hunters are this season expected to hunt in this district.

SPECIAL SERVICES

Rev. Robert J. Long Will Deliver
Address Tonight at
M. E. Church

The speaker tonight at the special services at the Methodist church is Rev. Robert J. Long, rector of the St. Paul's Episcopal. Song service will start at 7:30 and the message will be delivered at 8 p. m.

The message on "Preparing to Meet God" by Rev. L. F. Strothman, was timely.

Sun's Effect on Earth

From the earliest times sunlight has been considered an important aid in the preservation of health. The ancient Greeks and Romans exposed their naked bodies to the sun in the open air to recruit mental and physical energies. Exposure to the sun's rays was always adopted by the physicians of those times as a remedy for many affections, "especially dropsy, inflammation of the kidneys and paralysis."

MILTON P. NOEL DIES

Made Preliminary Survey of Northern Pacific Near Little Falls and Brainerd

Milton P. Noel, the teacher in St. Cloud's first public school, a Civil war veteran and a resident of Central Minnesota since 1855 died Saturday morning at his home in St. Cloud. Complications of advanced age was the cause of his death. He was 96 years old. The pioneer who is one of the last of St. Cloud's contingent of early settlers to survive achieved considerable distinction in surveying northern portions of the state in the early days.

As a soldier in the Civil war he took in some of its best known battles. He was employed by the government for some time and achieved distinction in making the preliminary survey of the Northern Pacific near Little Falls and Brainerd.

MUSICALE AT M. E. CHURCH

To be Given by an Orchestra of 18 Pieces Recently Organized

MONDAY EVENING, NOV. 29

Ambitious Program to be Rendered. Notable Violin Section Described

A musicale to be presented by favorite home talent under the auspices of the Methodist ladies aid is to be heard in the auditorium of the church on the evening of November 29.

An orchestra of eighteen pieces is to play the Orpheus overture by Offenbach; the Scarf Dance by Chaminade, and "Home Sweet Home the World Over." The latter is an arrangement of the melody in rhythmic and harmonies characteristic of Germany, Spain, Russia, Ireland, Scotland, our own and several other countries. The orchestra also does some accompaniment work.

In the string section there are six violins. Miss Geraldine Kiebler occupies the first chair. She began her violin studies under Mr. Berg, one of the foremost of Brainerd's former musical instructors. During the past four years she has continued her studies in Minneapolis. First at the MacPhail School of Music and of late under a private teacher.

Olaf Næm started his violin work in his native country of Norway. Later he continued at a conservatory at Oslo, called at that time, Christiania.

Harry Butler studied violin at the Grand Forks Conservatory of Music and for several years played in the first violin section of the Grand Forks philharmonic orchestra.

Kenneth Brackner, one of the younger Brainerd violinists started with Julius Witham and for the past two years has continued his lessons at the MacPhail school.

John Goederz received his introduction to the violin from Dan Whitford, Sr., the latter being a pioneer of Brainerd as a citizen and among the foremost of his time in musical fields. Mr. Goederz plays a Nicholas J. Nicolay violin, one of the best known of contemporary makes.

Mrs. C. E. Moore is a granddaughter of Mr. Whitford, and is one of several violinists occurring in this generation of her family. Her ancestors for at least four generations before her have been musicians, especially gifted as violinists. She plays a genuine Gaurnerius violin.

BOOK DONATIONS

Dr. A. F. Groves Gives Fine Collection to the Brainerd Public Library

The following books were given to the Brainerd Public Library by Dr. A. F. Groves:

Warner—Library of the World's Best Literature, 45 vols.

Richardson—Messages and Papers of the President, 1789-1897, 19 vols.

Larned—History for Ready Reference, 5 vols.

Beck—Cuba's Fight for Freedom.

These are all in perfect condition and make a very valuable addition to the reference department of the library.

Dr. Groves was also the donor of a number of books to St. Joseph's hospital for which the authorities are very grateful.

No. 2941

State of Minnesota, County of Crow Wing, In Probate Court.

In the Matter of the Estate of Anton Nelson, also known as Anton C. Nelson, Decedent.

Letters of Administration this day having been granted to O. C. Henderson.

IT IS ORDERED, That the time within which all creditors of the above named decedent may present claims against his estate in this court, be and the same hereby is, limited to six months from and after the date hereof; and that Monday, May 9th, 1927, at 10 o'clock A. M. in the Probate Court Rooms at the Court House at Brainerd in said County be, and the same hereby is, fixed and appointed as the time and place for hearing upon and the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in The Brainerd Daily Dispatch, as provided by law and by mailed notice as provided by the rules of this court.

Dated November 8th, 1926.

PREVENT OUTBREAK OF DIPHTHERIA

Children at Deerwood to Receive Toxin-Anti-Toxin Treatment

NO CAUSE FOR ALARM

Material is Being Furnished Free by the State Board of Health

Prevention of a possible outbreak of diphtheria in the schools at Deerwood through the toxin-anti-toxin treatment is being arranged through the school board and health officer of Deerwood, according to the monthly report submitted by Miss Thora Ingebritson, county health nurse.

Although at present there is no cause for alarm in the schools, county health authorities are taking no chances on a possible outbreak. The material is being furnished free by the State Board of Health.

The following report shows the good work accomplished by Miss Ingebritson in caring for the health of the county during the month of October:

Total number visits to homes.....34
Total number visits.....52

Of this number there were 24 instruction and demonstration visits, which include visits to tubercular patients, crippled people, pre-natal cases and follow-up visits to school children. There were 10 investigation visits including scarlet fever, measles and gonorrhea. Eighteen miscellaneous visits were made to doctors, school boards, etc.

Clinics

Dental—A dental clinic was held in Pequot by Dr. Palmer of Pine River. Two hundred and twenty-one children were examined, and notices were sent to the parents of children who needed dental work.

Tuberculosis—Two tuberculosis clinics were held with a total attendance of eighteen, eleven of which were old cases and seven, new cases.

Toxin-anti-toxin treatment for diphtheria—Arrangements are being made through the school board and health officer of Deerwood to give the children the toxin-anti-toxin treatment for diphtheria. The material is being furnished free by the State Board of Health.

Special Cases

Three people were accompanied to doctors, one to a dentist and one to the State Hospital for Crippled Children.

Clothes were secured for a needy family.

At the request of the State Board of Control, one investigation was made of a boarding home for a baby.

The artificial limb which was purchased for a patient last month, arrived, and was found satisfactory.

School Work

Sixteen visits were made to school rooms. Three hundred and four children were inspected, eighty-six in class room inspection and two hundred and eighteen were given the individual inspection. There were one hundred sixty-five pupils with defects. Thirty-two pupils had had defects corrected. Eleven class talks were given.

HEDDA HOYT SAYS--

By HEDDA HOYT

OPERA SEASON BEGINS
New York, Nov. 18. (UP)—

Dames and damsels to whom the Winter season would be a total flop were it not for the conspicuous parts they play seated in the glittering Horseshoe Circle of the Metropolitan Opera, were very much in evidence again this year.

Fashionables are wearing reds and greens above all other colors. One who feels a bit disappointed in the glitter of the jewels of the Four Hundred can't help from being dazzled by the glorious shades of their costumes: reds varying from pale flesh tints to corals, rose, crimson and purplish casts and greens in pastel and emerald tones.

Black fails to register this season even where older women are concerned. Silver adds a highlight here and there and turquoise forms an occasional wrap or gown of youthful type. One would say that red shades rule throughout the audience followed by greens, white and silver.

One of the outstanding styles noted in both gowns and wraps is the fullness above the hipline of the bloused silhouette. Skirts of gowns

Just the Right Materials To Make a Chic Little Dress

Perhaps you have been wanting just the right wool material to make a little dress of this kind, perhaps for better wear, or for work, or school. Here you will find materials which have the stamp of fashion coupled with the best of quality.

Fine wool twills, in plain shades or in neat fancy designs, every thread wool, 52 to 56 in. wide, so that they cut to good advantage. Navy, beaver, tans, blue, all are popular.

All wool flannels in fine quality, 54 in. wide, a dozen of the prettiest shades to choose from. An excellent quality at, per yard, \$3.00.

Fine wool challie, in attractive small printed patterns, each one almost prettier than the other, so that you are sure to find something you will like. 30 in. wide. Per yard \$1.50.

Pictorial Review
Patterns

E. F. GATES

A Good Place
To Trade

and wraps are tight at the hips and taper toward the hem, while the upper portion of wrap or gown is bloused.

Velvet is the outstanding evening material used for gowns and wraps although chiffons, sheer crepes and taffetas add a relief. Sequins and beadwork in all-over or band effect adorn many sophisticated gowns. Some of the velvet gowns are of classic lines with skirt drapery at one side.

Brocades, metal cloth and white ermine also form fashionable wraps. Almost every wrap has fur trimming. Ermine is outnumbering all other furs used.

White fox neckpieces are worn with colorful velvet wraps and fox in white, platinum or beige is used as trimming on many models. For instance, a silver lame wrap is colored in platinum fox and a border of fox completes the hemline. Ostrich fans still wave throughout the boxes in shaded tones of reds and greens. Skirts are quite as short on evening gowns as on daytime frocks.

Sexes Divide Honors

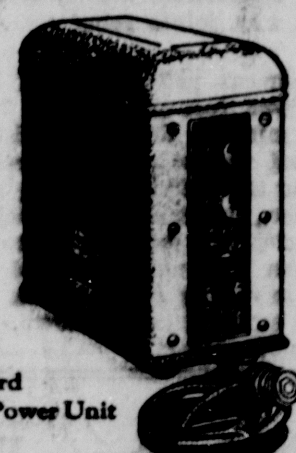

At last you'll have to admit that your wife can work faster than you can. Likewise, she must agree that your judgment is better than hers—in the long run.

Such conclusions, at least, are substantiated by a series of tests given to 542 women and 542 men, all college students, under the direction of the psychological laboratory of Johns Hopkins university.

It was found, reports Popular Science Monthly, that in the task of substituting letters for symbols the women, on the average, could do more in a given time than the men. The latter, however, were more accurate in judging in advance the amount of work they could do in the time allotted.

Etiquette Constant Problem

Proper manners are set by the leaders of every age in history, and yet "high society" is hardly less guilty than the lower social orders at times. The situation became so bad during the reign of Louis XIV in France, who had poor eating manners, that books of instruction were issued then as now. At one time the fork was held "indecent."

Daphne and the Dolls

By DOROTHY DOUGLAS

(Copyright.)

DAPHNE WATERSON came into the tea-room for luncheon. The act was a very ordinary one for Daphne usually went into the tea-room at midday.

To Vantyne, who saw her from the table where he was lunching, it meant a sudden sense of elation.

Daphne's hair was the color of copper in the firelight and her entire costume, even to the low heels of her exquisite shoes, was of the identical shade—pure, unblemished copper.

"Why on earth can't more girls know what they look well in?" mused Vantyne, and while Daphne studied her menu his heart thumped for he caught sight of an enormous topaz on her engagement finger.

He followed her out when she left the tea-room because he felt that he absolutely must watch where she went—it seemed the most vital thing in life—that he should know something more of this wonder girl. He saw her step for a moment in front of a toy shop and an amused smile flitted across her lips at something she saw.

A second later she had vanished into one of the great buildings that house, for one thing, the exquisite premises of "Lewis," a name to conjure up dreams of loveliness to the feminine heart and nightmares of bills to the masculine mind.

In the center of the window was a doll dressed in the exact costume that the girl herself was wearing. There were other dainty dresses for dolls, all extremely artistic.

Vantyne went forthwith into the shop and demanded to see the doll in the window. "The one dressed in brown," he added feeling frightfully embarrassed, since he had never bought a doll in his life.

Then, because the girl serving him was young and happy like himself, he asked all about the doll and was told that a young lady of the staff of Lewis designed the costumes after those of Lewis.

"We have the sole right to the dresses Miss Waterson makes," the girl added, not without a touch of pride.

"Would it be possible for me to interview the young lady? I would like a lot of dolls, like this, for—er—my nieces." Vantyne was not too good at fabrication and stumbled a bit. "The business would go through you, of course," he supplemented.

Vantyne unconsciously selected his most atrocious tie and sallied to the address of Miss Waterson that very evening.

When Daphne entered the boarding-house lounge and saw her caller, H. Vantyne, a queer little smile came into her eyes. Much lay behind that smile, but Vantyne was not to know about it just then.

He was so consumed with the joy of seeing her again that he almost forgot the rise that had brought about the meeting.

"Miss Waterson," he said, "I have come to you on a matter of business and hope you will pardon the liberty. I got your address from the toy shop."

"Oh," laughed Daphne as she seated herself beside him, "then you have seen my dolls. Lewis, one of whose mannequins I am, is good enough to let me copy many of his dresses and gives me all the materials to do it with. You like them, do you?"

"Like isn't the word," laughed Vantyne. "I wanted to know if you would be so good as to make dozens of them for my nieces and nephews?"

"Nephews don't play with dolls," said Daphne. "But—how old are all these nieces and what size dolls would you want?"

Vantyne was completely lost among his various nieces and the amber of Daphne's eyes. "Oh, all sizes," he told her and grinned boyishly. Daphne, too, smiled with much understanding.

"Well, if you like to select the dolls I will be only too glad to dress them. I love the work and it helps my in-

Early Bottles Quaint

Metal molds were used in making the first American bottles, which were quaint in design and more often than not colored. Inscriptions, rough bottoms and uneven necks characterized these early products. The necks or mouths were uneven because the glass was cut with shears while still in a molten state.

Mrs. Dumas Says Gas Took Her Breath

"I had gas on the stomach so bad that I could hardly breathe. Everything I ate went against me. After I began taking Adlerika, the gas left me and I eat everything."—Mrs. E. J. Dumas.

Adlerika differs from most medicines because it acts upon BOTH upper and lower bowel. It gives the system a REAL cleansing, and clears out old poisons which usually cause sour, gassy stomach, nervousness, sleeplessness, headache. Just ONE spoonful stops GAS, and relieves that full, bloated feeling so that you can eat better and sleep better. Even if bowels move daily, Adlerika brings out much additional poison which you never guessed was in you, system and which may have long caused trouble. No matter what you have tried for stomach and bowels, Adlerika will surprise you. Johnson's Pharmacy, Economy Drug Co. and other druggists. —Adv.

A Bit Mixed

Kingston Wife—On Saturday night he came home at half-past twelve on Sunday morning.—London Tit-Bits.

TO DARKEN HAIR

APPLY SAGE TEA

Common garden sage brewed into a heavy tea with sulphur added, will turn gray streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use for only 75 cents. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair, is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application of two, your hair becomes beautifully dark, glossy, soft and luxuriant. —Adv.

Corns

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation. —Adv.

How To Care For Varicose or Swollen Veins

Rub Gently and Upward Toward the Heart as Blood in Veins Flows that Way

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give you is to ask your druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and apply as directed night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. So penetrating and powerful is Emerald Oil that even Piles are quickly relieved. H. P. Dunn sells lots of it.

Daphne and the Dolls
By DOROTHY DOUGLAS
(Copyright.)

DAPHNE WATERSON came into the tea-room for luncheon. The act was a very ordinary one for Daphne usually went into the tea-room at midday.

To Vantyne, who saw her from the table where he was lunching, it meant a sudden sense of elation.

Daphne's hair was the color of copper in the firelight and her entire costume, even to the low heels of her exquisite shoes, was of the identical shade—pure, unblemished copper.

"Why on earth can't more girls know what they look well in?" mused Vantyne, and while Daphne studied her menu his heart thumped for he caught sight of an enormous topaz on her engagement finger.

He followed her out when she left the tea-room because he felt that he absolutely must watch where she went—it seemed the most vital thing in life—that he should know something more of this wonder girl. He saw her stop for a moment in front of a toy shop and an amused smile flitted across her lips at something she saw.

A second later she had vanished into one of the great buildings that house, for one thing, the exquisite premises of "Lewis," a name to conjure up dreams of loveliness to the feminine heart and nightmares of bills to the masculine mind.

In the center of the window was a doll dressed in the exact costume that the girl herself was wearing. There

How to Gain 5 Pounds in 30 Days

Ask H. P. Dunn, C. D. Johnson, Economy Drug Co. or any druggist for a box of McCoy's Cod Liver Oil Compound Tablets. They cost but little, are sugar coated and as pleasant to take as candy.

Skinny men and women take them to speedily put on plenty of good, healthy, solid flesh, and for this purpose they are so extremely good that thin men and women often take on 5 pounds or more in 30 days. As a matter of fact, all druggists are authorized to return you, money if you don't take on 5 pounds in 30 days.

One thin woman gained 15 pounds in six weeks.

Insist on McCoy's, the original and genuine—60 Tablets—60 cents.

were other dainty dresses for dolls, all extremely artistic.

Vantyne went forthwith into the shop and demanded to see the doll in the window. "The one dressed in brown," he added feeling frightfully embarrassed, since he had never bought a doll in his life.

Then, because the girl serving him was young and happy like himself, he asked all about the doll and was told that a young lady of the staff of Lewis designed the costumes after those of Lewis.

"We have the sole right to the dresses Miss Waterson makes," the girl added, not without a touch of pride.

"Would it be possible for me to interview the young lady? I would like a lot of dolls, like this, for—er—my nieces." Vantyne was not too good at fabrication and stumbled a bit. "The business would go through you, of course," he supplemented.

Vantyne unconsciously selected his most atrocious tie and sallied to the address of Miss Waterson that very evening.

When Daphne entered the boarding-house lounge and saw her caller, H. Vantyne, a queer little smile came into her eyes. Much lay behind that smile, but Vantyne was not to know about it just then.

He was so consumed with the joy of seeing her again that he almost forgot the ruse that had brought about the meeting.

"Miss Waterson," he said, "I have come to you on a matter of business and hope you will pardon the liberty. I got your address from the toy shop."

"Oh," laughed Daphne as she seated herself beside him, "then you have seen my dolls. Lewis, one of whose mannequins I am, is good enough to let me copy many of his dresses and gives me all the materials to do it with. You like them, do you?"

"Like isn't the word," laughed Vantyne. "I wanted to know if you would be so good as to make dozens of them for my nieces and nephews?"

"Nephews don't play with dolls," said Daphne. "But—how old are all these nieces and what size dolls would you want?"

Vantyne was completely lost among his various nieces and the amber of Daphne's eyes. "Oh, all sizes," he told her and grinned boyishly. Daphne, too, smiled with much understanding.

"Well, if you like to select the dolls I will be only too glad to dress them. I love the work and it helps my in-

BREAK A CHEST
COLD WITH HEAT
OF RED PEPPERS

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."

come a whole lot. I send a 'good deal back to my folks, out West.

"Would you be likely to help me buy the dolls—you see I don't quite know the type most suitable for dressing—besides I never bought a doll in my life except one."

"Do you mean to tell me," asked Daphne accusingly, "that with those scores of little nieces you have never bought any one of them a doll?"

"I always got them parasols and tea-sets and—a—jumping ropes," Vantyne stammered. "But I intend giving them dolls from now on—that is if I can come along from time to time and see that the work is going on in a satisfactory way." He paused while Daphne tried desperately not to laugh.

"I could send them from time to time for your inspection," she said. "It would save you the trouble of—"

"I don't want to be saved the trouble of coming," said Vantyne.

"You tie," said Daphne suddenly and with released laughter, "is even worse than the one you had in the tea-room at lunch and I don't believe you have a niece in the world."

"I haven't," said Vantyne, and when Daphne swiftly lowered her eyelids he had the joy of noticing that the ring she wore on her engagement finger was a lovely sapphire. Evidently a part of the costume ensemble which tonight was of softest blue. She had noticed him at lunch—and all was well.

A Bit Mixed
Kingston Wife—On Saturday night he came home at half-past twelve on Sunday morning.—London Tit-Bits.

TO DARKEN HAIR
APPLY SAGE TEA

Common garden sage brewed into a heavy tea with sulphur added, will turn gray streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application of two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

How To Care For
Varicose or Swollen Veins

Rub Gently and Upward Toward the Heart as Blood in Veins Flows that Way

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give you is to ask your druggist for an original two-ounce bottle of Moore's Emerald

Early Bottles Quaint

Metal molds were used in making the first American bottles, which were quaint in design and more often than not colored. Inscriptions, rough bottoms and uneven necks characterized these early products. The necks or mouths were uneven because the glass was cut with shears while still in a molten state.

Mrs. Dumas
Says Gas Took
Her Breath

"I had gas on the stomach so bad that I could hardly breathe. Everything I ate went against me. After I began taking Adlerika, the gas left me and I eat everything."—Mrs. E. J. Dumas.

Adlerika differs from most medicines because it acts upon BOTH upper and lower bowel. It gives the system a REAL cleansing, and clears out old poisons which usually cause sour, gassy stomach, nervousness, sleeplessness, headache. Just ONE spoonful stops GAS, and relieves that full, bloated feeling so that you can eat better and sleep better. Even if bowels move daily, Adlerika brings out much additional poison which you never guessed was in you, system and which may have long caused trouble. No matter what you have tried for stomach and bowels, Adlerika will surprise you. Johnson's Pharmacy, Economy Drug Co. and other druggists.

Getting Up Nights
Is Nature's Way of Telling You "Danger Ahead." A Healthy Bladder Acts in Day Time Only

Mrs. G. W. Bushong, 1012 S. East St., Bloomington, Ill., says: "I will tell or write how I was relieved of bladder weakness by Lithiated Buchu (Keller Formula). I was disturbed 20 to 25 times at night." It cleanses the bladder as epsom salts do the bowels. Keller Laboratory, Mechanicsburg, Ohio. Sold at all drug stores. Locally at Johnson's Pharmacy. —Advt.
